IN MEMORIAM

Alex Barbarika, a long-time employee of FSA's Economic and Policy Analysis Staff (and now the Business Center's EPAD), died in a fire in his home on February 7. He was 72. He had a huge impact on USDA conservation policy, from developing the initial design of the Conservation Reserve Program in 1985, to helping formulate the environmental benefits index, to assessing the impacts of recent discretionary CRP decisions. Alex assured that CRP was thoroughly and accurately documented and recently wrote a "history of CRP" in celebration of the program's 35th year, which you can read here: https://www.fsa.usda.gov/Assets/USDA-FSA-Public/usdfiles/Conservation/PDF/35_YEARS_CRP_B.pdf. Alex developed the monthly CRP summary reports and ensured that this and other statistical information related to CRP was always maintained and updated. This month's report is dedicated to Alex's memory.

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives.

Conservation Reserve Enhancement Program (CREP). Under CREP, federal funds are supplemented with non-federal funds from eligible partners to implement projects designed to address specific environmental objectives through targeted CRP enrollment. Eligible partners provide matching contributions such as cash, in-kind contributions, or technical assistance. Eligible producers may enroll eligible land any time during the year.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

Grasslands. Enrollments are to support grazing operations and to preserve and restore grasslands. No cropping history is required.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through the **end of January** and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.
