Hours: 8:00 AM - 4:30 PM

State Executive Director:
Adrian J. Polansky

MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 1, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of \$100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from \$4.00 to \$8.00, in \$0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for MPP-dairy are still being developed. Additional information will be provided as it becomes available.

SELECTED INTEREST RATES FOR AUGUST 2014

Direct Farm Operating Loans - 2.125%
Direct Farm Ownership Loans - 3.75%
Direct Farm Ownership Loans — Down Payment, Beginning Farmer or Rancher - 1.50%
Direct Farm Ownership Loans — Joint Financing - 2.50%
Emergency Loans - 3.125%
Farm Storage Facility Loans (7 years) - 2.125%
Commodity Loans 1996-Present - 1.125%

USDA NOTIFIES PRODUCERS ON ACREAGE HISTORY AND YIELDS

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm's acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Later this summer, farmers and ranchers will have an opportunity to update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit www.fsa.usda.gov or the local FSA office for information about FSA and the 2014 Farm Bill programs.

Visit www.fsa.usda.gov or the local FSA office for information about FSA and the 2014 Farm Bill programs.

AGRICULTURAL PRODUCERS STILL HAVE TIME TO APPLY FOR DIRECT FARM OWNERSHIP LOAN PROGRAM

Low-Interest Loans Can Help Producers Start or Expand Farms

Farmers and ranchers still have time to apply for low interest 2014 loans available through FSA's direct farm ownership program. The deadline to submit an application is Sept. 30, 2014.

Eligible producers can borrow up to \$300,000 in direct farm ownership loans to buy or enlarge a farm, construct new farm buildings or improve structures, pay closing costs, or promote soil and water conservation and protection. The interest rate on select loans can be as low as 1.5 percent with up to 40 years to repay.

FSA encourages all interested applicants to apply for direct farm ownership loans. For more information about the program and other loans administered by FSA, visit any FSA county office or www.fsa.usda.gov.

NAP COVERAGE NOT AVAILABLE FOR ANNUALLY PLANTED CROPS USED FOR MECHANICALLY HARVESTED LIVESTOCK FEED

Producers are reminded that NAP coverage will not be available for 2015 annually planted forage crops used for mechanically harvested livestock feed that includes, but is not limited to: small grains, forage sorghums, mixed forages, turnips and other annually planted crops with the following intended uses: "fg," "gc," "Hy," and "sg." The Risk Management Agency (RMA) announced a pilot program last year that offers a CAT level Rainfall Index-Annual Forage Insurance Plan to producers in Texas, Kansas, Nebraska, North Dakota, Oklahoma and South Dakota.

Producers were allowed to use NAP coverage for 2014 annual forage crops because there was limited time for producers in the pilot states to transition from NAP to the new RMA pilot program. However, NAP coverage will not be available for 2015 annual forage crops used for mechanically harvested livestock feeds.

NAP Coverage Available for 2015 Crops for Livestock Feed Intended for Grazing:

It is important that producers note that NAP coverage WILL be available for annually planted crops for livestock feed intended for grazing because RMA is not offering CAT level coverage under the Rainfall Index-Annual Forage Insurance Plan. The NAP sales closing date for this insurance is September 1st for crops planted in the fall and December 1st or March 15th (depending on the crop) for crops planted in the spring.

Please contact your local FSA office for questions concerning NAP or your crop insurance agent for questions concerning RMA crop insurance. A list of agents can be found at www.rma.usda.gov/.

USDA SELECTS 36 ENERGY FACILITIES TO ACCEPT BIOMASS DELIVERIES

Program Includes Biomass Removals from Federal Lands to Reduce Forest Fires

USDA has selected 36 energy facilities in 14 states to accept biomass deliveries supported by the Biomass Crop Assistance Program (BCAP), which was authorized by the 2014 Farm Bill. Biomass owners who supply these facilities may qualify for BCAP delivery assistance starting July 28, 2014.

Of the total \$25 million per year authorized for BCAP, up to 50 percent (\$12.5 million) is available each year to assist biomass owners with the cost of delivery of agricultural or forest residues for energy generation. Some BCAP payments will target the removal of dead or diseased trees from National Forests and Bureau of Land Management public lands for renewable energy, which reduces the risk of forest fire.

Farmers, ranchers or foresters who harvest and deliver forest or agricultural residues to a BCAP-qualified energy facility may be eligible for financial assistance for deliveries. The USDA Farm Service Agency (FSA), which administers BCAP, will begin accepting applications from biomass owners from July 28 through Aug. 25. Deliveries of residues for approved contracts may be made through Sept. 26, 2014.

The selected BCAP energy facility in Kansas is Abengoa located in Hugoton. Visit www.fsa.usda.gov/bcap or a local FSA county office to learn more about BCAP.

USDA REMINDS FARMERS OF 2014 FARM BILL CONSERVATION COMPLIANCE CHANGES

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/.

DATES TO REMEMBER

09/01/2014	Final Date to Purchase 2015 NAP coverage on: Canola, Seed; Rye, Grain; Triticale, Grain; Christmas Trees, Nursery Crops; and Turfgrass Sod
09/30/2014	Final Date to Enroll in Transition Incentive Program (TIP) for CRP Contracts Scheduled to Expire on Sept. 30, 2014
11/01/2014	Final Date to Submit a Notice of Loss for ELAP for 2014 Program Year
11/15/2014	Final Acreage Reporting Date for Perennial Forage
12/15/2014	Final Acreage Reporting Date for Fall-seeded Small Grains
01/30/2015	Final Date to Submit an Application for LIP and LFP for 2011, 2012, 2013 and 2014 Program Years

LIVESTOCK DISASTER ASSISTANCE SIGN-UP UNDERWAY

Livestock disaster program enrollment opened on April 15, 2014. These disaster programs are authorized by the 2014 Farm Bill as permanent programs and provide retroactive authority to cover losses that occurred on or after Oct. 1, 2011.

To expedite applications, all producers who experienced losses are encouraged to bring records documenting those losses to their local FSA Office. Producers should record all pertinent information of natural disaster consequences, including:

- Documentation of the number and kind of livestock that have died, supplemented if possible by photographs or video records of ownership and losses
- Dates of death supported by birth recordings or purchase receipts
- Costs of transporting livestock to safer grounds or to move animals to new pastures
- Feed purchases if supplies or grazing pastures are destroyed
- Crop records, including seed and fertilizer purchases, planting and production records

Eligible producers can sign-up for the following livestock disaster assistance programs:

Livestock Forage Disaster Program (LFP):

LFP provides compensation to eligible livestock producers that have suffered grazing losses due to drought on privately owned or cash leased land or fire on federally managed land. Eligible producers must physically be located in a county affected by a qualifying drought during the normal grazing period for the county. Producers who suffered eligible grazing losses should submit a completed CCC-853 and supporting documentation by January 30, 2015.

Livestock Indemnity Program (LIP):

LIP provides compensation to eligible livestock producers that have suffered livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. Producers who suffered livestock death losses should submit a notice of loss and an application for payment to their local FSA office by January 30, 2015.

Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP):

ELAP provides emergency assistance to eligible producers of livestock, honeybees and farm-raised fish that have losses due to disease, adverse weather, or other conditions, such as blizzards and wildfires. ELAP assistance is provided for losses not covered by LFP and LIP. For 2014 program year losses, a notice of loss and an application for payment must be submitted by November 1, 2014.

For more information, producers can review the LFP, LIP and ELAP Fact Sheets on the [Farm Bill webpage](#). Producers are encouraged to make an appointment with their local FSA office to apply for these programs.
