 - producing livestock products
 - farm-based production of renewable bio-energy

Section 2 General Administration

21 Annual Notice to Producers

A When to Provide Information

Annually advise all producers of the payment eligibility and payment limitation requirements in this paragraph. Use a newsletter and all other practical means available.

Note: It may be appropriate to provide the information in subparagraph B more than once during a calendar year, if there is more than 1 program operating in the county for which the rules in subparagraph B apply (Exhibit 4).

B Information to Provide

Notify producers, at **least** annually, of the following:

- payments and benefits under certain programs are subject to some or all of the following:
 - payment limitation by direct attribution
 - payment limitation amounts for the applicable programs
 - actively engaged in farming requirements
 - cash-rent tenant rule
 - foreign person rule
 - average AGI limitations
- no program benefits subject to limitation will be provided until:
 - **all** required forms for the specific situation are provided
 - necessary payment eligibility and payment limitation determinations are made

21 Annual Notice to Producers (Continued)

B Information to Provide (Continued)

- payment eligibility and payment limitation determinations may be initiated by COC or requested by the producer
- after 2009, a farm operating plan is **not** required to be filed annually, if the farming operation continues to be conducted as reflected on the farm operating plan and supporting documents are on file in the County Office
- if any changes occur that could affect an actively engaged in farming, cash-rent tenant, foreign person, or average AGI determination, producers **must** timely **notify** the County Office by filing revised farm operating plans and/or supporting documentation, as applicable

Note: Failure to timely notify the County Office may adversely affect payment eligibility.

- there are statutory provisions that require entities, earning program benefits that are subject to limitation, to provide the names, addresses, and TIN's of the entities' members to COC
- all applicable payment eligibility and payment limitation forms submitted by producers are subject to spot check through the end-of-year review process

Note: Explain what information the producer **must** provide to COC.

- a determination of **not** actively engaged in farming results in the producer being ineligible for any payment or benefit requiring a determination of actively engaged in farming
- noncompliance with AGI provisions, either by exceeding the applicable limitations or by failure to submit a certification statement, will result in the determination of ineligibility for **all** program benefits subject to AGI provisions; program benefits shall be reduced in an amount that is commensurate with the direct and indirect interest held by an ineligible person or legal entity in any legal entity, general partnership, or joint operation that receives benefits subject to the average AGI limitations.

22 Public Information and Casual Advice

A Providing Information to the Public

Provide applicable pages from this handbook to any producer who requests information on any program provisions about payment eligibility, payment limitation, and average AGI compliance determinations.

B Casual Advice Rule

Casual advice shall **not** be given on:

- possible determinations
- how to set up a farming operation to obtain additional payments.

23-30 (Reserved)

Section 3 Producer Filing Requirements

31 Filing Requirements

A If 1 or More Producers Fail to File

[7 CFR 1400.2 (e)] If 1 or more producers on a contract or application for benefits fail to file the applicable CCC-902, CCC-926, CCC-931, or CCC-933 and related forms, the producers **not** filing the applicable forms will be ineligible to receive program benefits subject to eligibility and limitation applicable to that contract or application.

This failure to file will **not** affect the eligibility of other producers who meet all filing requirements.

Note: Shares **cannot** be adjusted to circumvent the ineligibility of the producer who failed to file the applicable forms and related documentation.

***--B Deadline for Filing CCC-901, CCC-902, CCC-926, CCC-931, or CCC-933, and Related Forms**

CCC-901, CCC-902, CCC-926, CCC-931, or CCC-933, and related forms may be filed at any time.

Encourage producers to file these forms:

- according to the deadlines established for each applicable program for which payments are requested
- as timely as practicable.

31 Filing Requirements (Continued)

B Forms and Updates

--All** participants in programs subject to the provisions of this handbook are required to submit a completed CCC-902, CCC-926, CCC-931, or CCC-933, and CCC-901, as applicable, **-- for payment eligibility and payment limitation purposes.

A valid CCC-902 and, if applicable, CCC-901 filed by the producer are considered to be continuous certifications used for all payment eligibility and payment limitation determinations applicable for the program benefits requested.

Producers are **not** required to annually submit new CCC-902's or CCC-901's for payment eligibility and payment limitation purposes unless a change in the farming operation occurs that may affect the determination of record.

Producers have the responsibility to:

- ***--ensure** that all CCC-902's, CCC-926's, CCC-931's, or CCC-933's, and related forms **--*** on file in the County Office are correct at all times
- timely notify the County Office of any changes in the farming operation that may affect the determinations of record by filing a new or updated CCC-902 or CCC-901, as applicable.

Changes that may affect the determinations include, but are **not** limited to, a change of:

- shares of a contract, which **may** reflect:
 - a land lease from cash-rent to share-rent
 - a land lease from share-rent to cash-rent

Note: The producer would be subject to the cash-rent tenant rule.
- a modification of a variable/fixed bushel-rent arrangement
- the size of the producer's farming operation by the addition or reduction of cropland that may affect the application of a cropland factor
- the structure of the farming operation, including any change in the member's shares

31 Filing Requirements (Continued)

--B Forms and Updates (Continued)--

- the contributions of farm inputs of capital, equipment, active personal labor, or active personal management
- the acquisition of farming interests **not** previously disclosed on CCC-902, including the farming interests of a spouse or minor child
- financial status that may affect the 3-year average for the determination of average AGI or other change that affects eligibility under the average adjusted income limitation.

C Documenting Changes

Changes to a farming operation may be documented on 1 of the following, depending upon the nature and extent of the changes:

- a photocopy of the previously filed CCC-902

Note: The producer should initial and date **each** change.

- CCC-902 Continuation

Note: CCC-902 Continuation may be used to document changes affecting owned or leased land in the producer's farming operation.

- a new CCC-902
- a new CCC-901, if membership in an embedded entity changes.

If changes are documented using CCC-902 photocopy or CCC-902 Continuation, the CCC-902 photocopy or CCC-902 Continuation shall **also** be signed and dated by the producer.

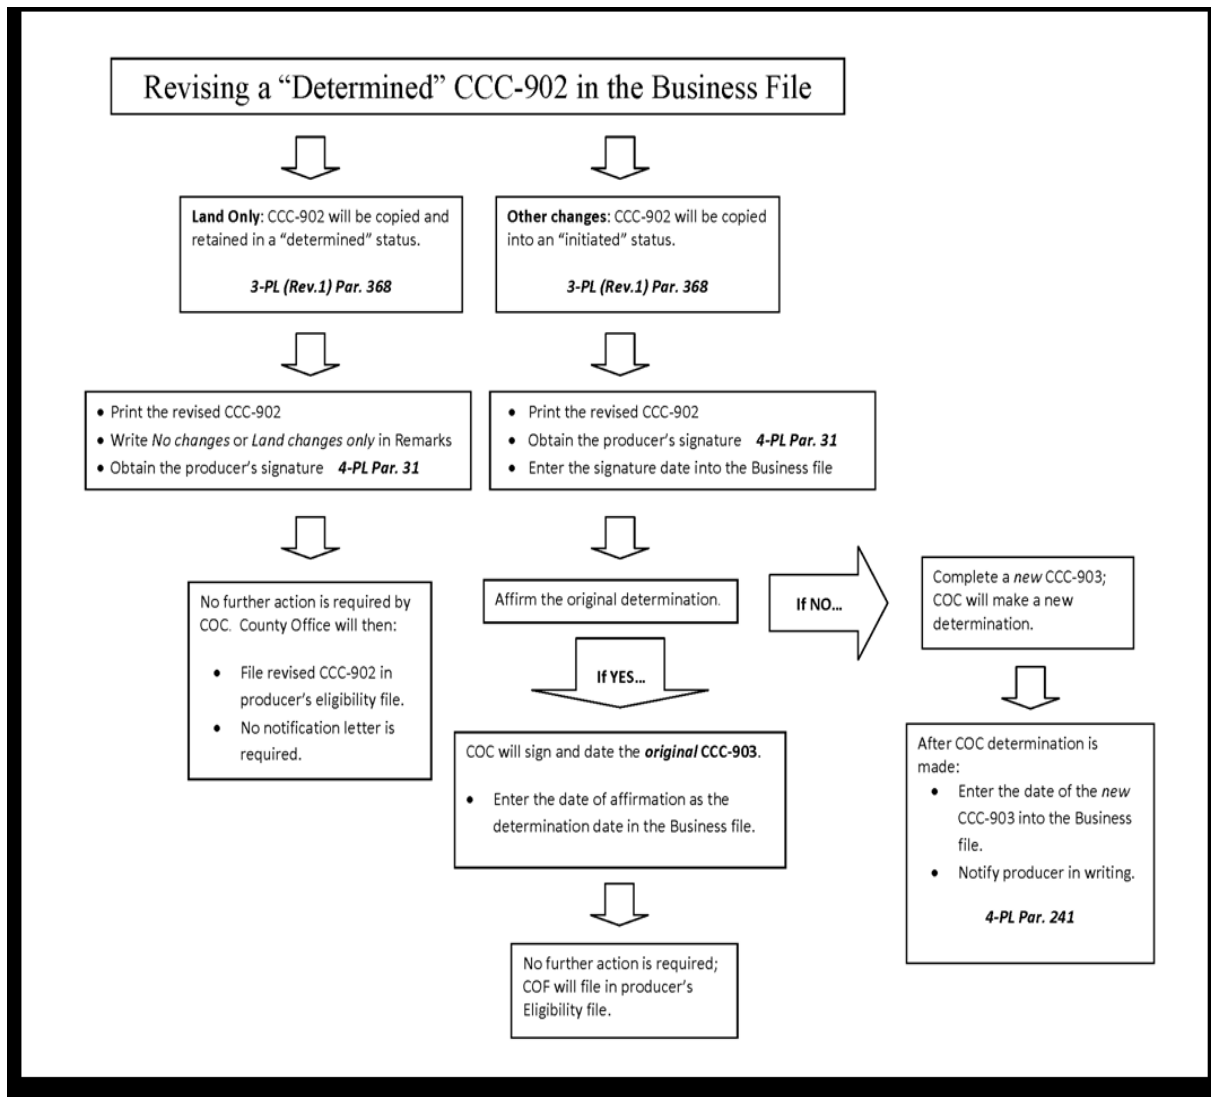

Note: If a new CCC-902 is submitted:

- applicable determinations **must** be made and the producer notified according to Part 7
- flag the producer as "awaiting determination" according to 3-PL (Rev. 1), subparagraph 26 B until all determinations are finalized.

31 Filing Requirements (Continued)

***--D Revising CCC-902 using the Business File Application**

The following is a diagram illustrating procedures for revising CCC-902 using the Business File application.

32 Documentation

A Introduction

This paragraph provides guidelines on documentation needed to support COC determination.

B Adequate Documentation

COC shall require adequate documentation to support the applicable CCC-902 and CCC-926, CCC-931, or CCC-933.

Definition: Adequate documentation means whatever documentation is required by the reviewing authority to make proper actively engaged in farming, attribution, and average AGI compliance determinations.

C Documentation Not Required

The reviewing authority should avoid requiring documents that are extremely personal if the determination can reasonably be made without the documents. COC may:

- accept documents with redacted information that is **not** relevant to the actively engaged in farming and average AGI determinations
- accept income tax returns to make the determination if **voluntarily** provided by the producer
- request income tax returns to verify compliance with all average AGI limitations.

D Lease Information

It is **not** anticipated that amounts paid for land leases or equipment leases will be needed unless the equipment or land is leased from another member with an interest in the farming operation.

32 Documentation (Continued)**E Documentation That May Be Used**

*--Supporting documents may include legal documentation such as:

- articles of incorporation
- * * *
- financial agreements, including letters of credit
- land and equipment leases
- land ownership records
- operating agreements
- partnerships agreements
- trusts agreements--*

Note: A copy of the trust agreement **must** be provided by the trust unless the trust is revocable.

- any other information, including income tax returns, needed to apply the payment eligibility and payment limitation rules.

32 Documentation (Continued)

F Scrutiny of Trusts

All trusts that receive payments shall be carefully scrutinized to ensure that the trusts are legitimate legal entities and have **not** been created solely for evading payment limitation provisions.

County Offices shall:

- require trusts to provide a copy of the trust agreement unless the trust is a revocable trust
- * * *
- determine whether provisions are included in the trust agreement that would require the trust to be considered a revocable trust according to paragraph 166.

G Determination Deadline

Additional information may be requested at COC's option. However, this will **not** extend the 60-calendar day period for making a determination. If the file, as submitted by the producer, does **not** support a favorable finding, COC shall make a determination based on the file as it ~~exists~~. See subparagraph 206 B for the start of the 60 calendar day period to make determinations.~~---~~*

H Returning Documentation

Any legal documentation obtained should be returned to the producer as soon as possible. Keep photocopies for the payment limitation file if needed to support COC's determination.

33 FLP Participants

A Information Exchange

--FLM or appropriate farm loan staff shall be provided access to copies of the following-- information on any program participant that is also an FLP borrower:

- submitted CCC-901
- new or updated CCC-902 and supporting documentation submitted
- the resultant CCC-903
- written notice of determination for payment eligibility and payment limitation purposes
- written notice of selection for end of year review for payment eligibility and payment limitation compliance purposes
- written notice of **any** determination that may adversely affect payment eligibility and payment limitation.

Note: This includes all farming interests of the FLP borrower, whether as a person, member, or interest holder in a legal entity or joint operation.

B Discrepancies

If representations made for program payment eligibility/limitation purposes and representations made for FLP purposes are found to be different, **and** have the appearance of adversely affecting payment eligibility or the application of any determination previously made, the discrepancies shall be resolved:

- by the program participant/FLP borrower to the satisfaction of COC and FLP reviewing authority
- **before** any further disbursement of **any** program benefits subject to the regulations at 7 CFR Part 1400 and provisions of this handbook.

34 General Form Requirements

D Forms for Conservation, Price Support, Disaster and Livestock Assistance, TAAF, and Other Program Payment Eligibility and Payment Limitation Purposes

For persons and legal entities who are participants in conservation, price support, disaster assistance, and other programs, CCC-901 and CCC-902 will be used to collect information for the application of the following:

- direct attribution
- minor child rules
- rules for foreign persons.

CCC-901 is required for all legal entities for the application of direct attribution of payments for payment limitation purposes.

Complete only the applicable parts of CCC-902I, CCC-902I Short Form, or CCC-902E for information on minor children and foreign persons who are applicants, or members of applicants, that request program benefits. Do **not** make a determination of “actively engaged in farming”.

Note: If using business file application, it is **not** necessary to complete manual form.

Designate these forms similarly to the following examples:

- “For CRP purposes only”
- “For ECP purposes only”
- *--“For EFRP purposes only”--*
- “For MAL and LDP purposes only”
- “For TAAF purposes only”.

Note: This requirement only applies to a new program participant who has **not** previously submitted these forms to FSA for participation in other programs.

- provide written notification to the participant according to Part 7
- update subsidiary files according to 3-PL (Rev. 1), Part 3
- record entities and joint operations according to 2-PL.

Section 4 General Application Rules

41 Custom Services

A Definition of Custom Services

Custom services mean the hiring of a contractor or vendor that is in the business of providing such specialized services or to perform services for the farming operation in exchange for the payment of a fee for such services performed.

B Applicability

If a person, joint operation, or legal entity receives custom services in the farming operation:

- make actively engaged in farming determinations according to Part 4
- the ability to meet the cash-rent tenant provisions may be adversely affected on land that is cash-rented in the farming operation.

Note: The equipment used to perform the custom services **cannot** be considered a significant contribution of equipment toward meeting the actively engaged in farming requirements because the person, joint operation, or legal entity does **not** exercise completed control over the equipment.

*--C Exceptions

The Custom Services provision does not apply to farming operations in which all the--* land is owned.

* * *

42 Denial of Program Benefits**A Introduction**

Detecting schemes, fraudulent representations, and other equally serious actions of persons and legal entities to circumvent payment eligibility and payment limitation provisions is **essential** for producer compliance.

This paragraph provides rules and guidelines for detecting and determining schemes or devices, fraudulent representations, and other actions to circumvent payment eligibility and payment limitation provisions. Determining actions to circumvent payment eligibility and payment limitation provisions by a person or legal entity may result in the person or legal entity being ineligible for program benefits for 2 to 5 years.

B Consequences of Scheme, Device, or Fraud Determination

When the reviewing authority determines that a person or legal entity:

- adopts a scheme or device designed to evade, or has the affect of evading, the payment eligibility and payment limitation provisions, the person or legal entity shall be **ineligible** for the crop year determined and the succeeding crop year for **all** program benefits subject to limitation
- perpetuates or commits fraud, or other equally serious actions, for the benefit of the person or legal entity, or for the benefit of any other person or legal entity, to circumvent any payment eligibility and payment limitation provision, the person or legal entity shall be **ineligible** for **5 years** for **all** program benefits subject to limitation.

42 Denial of Program Benefits (Continued)**C Detecting Schemes, Devices, and Fraudulent Activities**

State and County Office personnel shall be aware of their responsibilities in detecting and reviewing suspected schemes or devices or other questionable activities. To assist in detecting, State and County Offices, as appropriate, shall:

- compare automated multi-County producer files with information reported on CCC-902's to identify unreported farming interests
- use other system-generated reports and queries to identify possible schemes or devices
- closely scrutinize joint operations having individual members who are also stockholders, members, etc., of a member entity
- request OIG's assistance through the State Office, as appropriate.

D Schemes or Devices

[7 CFR 1400.5] Acts, such as the following, may be considered a scheme or device:

- concealing information that affects the application of the payment limitation provisions
- submitting false or erroneous information
- creating fictitious entities to conceal interest of a person or legal entity in a farming operation.

Note: Fraudulent intent is **not** required for determining scheme or device.

42 Denial of Program Benefits (Continued)

E COC or STC Scheme or Device Determinations

a scheme or device was not adopted to evade, or that had the purpose of evading, the provisions of this handbook	program participants may be eligible to receive program benefits if all other applicable requirements are met.

42 Denial of Program Benefits (Continued)

Section 5 Farming Operations

51 Determining Farming Operations

A Definition of Farming Operation

A farming operation means a business enterprise engaged in producing agricultural products.

B Description of Farming Operation

A person's, legal entity's, or joint operation's farming operation consists of the acreage on all farms in all counties in which the person, legal entity, or joint operation has an interest in the agricultural products or proceeds from the agricultural products produced. This includes all acreage in which the person, entity, or joint operation is a producer, regardless of whether the acreage is:

- rented on a crop-share basis
- rented on a cash-lease basis
- owned by the producer.

Note: Exclude owned acreage that has been cash-rented to a cash-rent tenant, if the landowner has no interest in any crop or crop proceeds from the acreage for the year.

Exception: The farming operation of a landowner includes only the acreage owned by the landowner, if **both** of the following apply:

- land owned by different landowners is combined into 1 farm with other tracts so the claimed share of the crops or crop proceeds is proportionate to size and value of the land and CAB's contributed
- the landowner is **not** also a tenant on the farm.

C Multiple Farming Operations

A person or legal entity may have more than 1 farming operation if the person or legal entity has an interest in 1 or more joint operations. Each interest in a joint operation will be an additional farming operation for the person or legal entity.

51 Determining Farming Operations (Continued)

Two Buddies Partnership	Farm 19.

Note: None of the persons or legal entities has any other farming interests. Pete Smith and Henry Black have no individual farming operation.

52 Interest in Farming Operations

A Examples of Interest in a Farming Operation

The following are considered interests in a farming operation:

- general partners of LP's when LP is a producer in the farming operation
- grantors of revocable trusts when the trust is a producer in the farming operation.
- landlords, including landowners, have an interest in the farming operation containing the acreage owned or leased, whether or **not** the landlord has an interest in the production or proceeds from the production
- landowners have an interest in the farming operation containing the land owned, whether or **not** the landowner has an interest in the production or proceeds from the production
- members of a joint operation when the joint operation is a producer in the farming operation
- producers who share in the production or proceeds of the production from the farming operation

52 Interest in Farming Operations (Continued)**B Examples of No Interest in a Farming Operation**

The following are **not** considered interests in a farming operation:

- beneficiaries of trusts when the trust is a producer in the farming operation
- grantors of irrevocable trusts when the trust is a producer in the farming operation
- heirs to estates when the estate is a producer in the farming operation
- limited partners of LLP when LLP is a producer in the farming operation
- members of associations when the association is a producer in the farming operation
- stockholders in a corporation when the corporation is a producer in the farming operation
- trustees and personal representatives of trusts or estates when the trust or estate, respectively, is a producer in the farming operation.

C Most Restrictive Rule

Applying a more restrictive rule may apply if a person or legal entity has an interest in another person's or legal entity's farming operation.

53 Total Value of a Farming Operation**A Introduction**

The total value of a farming operation **must** be computed when determining whether:

- the contributions made by the person or legal entity are significant
- contributions are commensurate with the claimed share of profits or losses from the farming operation.

B Definition

Total value of a farming operation means the total of the costs, excluding the value of active personal labor and active personal management that is contributed by a member of the farming operation, needed to carry out the farming operation for the year for which the determination is made.

53 Total Value of a Farming Operation (Continued)**C Example 1**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 2,000 acres of cropland growing corn and various vegetables. All of the land that Partnership ABC farms has a rental value equal to \$42 per acre.

Partner A contributes land with a total rental value of \$24,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner A's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$12,000 of capital. None of Partner A's contributions are acquired as the result of a loan.

Partner B contributes land with a total rental value of \$12,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner B's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner B's contribution are acquired as the result of a loan.

Partner C contributes land with a total rental value of \$12,000 to the partnership. Partner C owns this land. Partner C's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner C's contributions are acquired as the result of a loan.

Partnership ABC rents land from other landowners for a 1/3 share of the crop with a value of \$36,000. Partnership ABC contributes owned equipment with a rental value of \$21,000 and \$99,000 of capital to the farming operation.

Each of the partners share equally in the labor and management of this farming operation and no additional labor or management is hired.

53 Total Value of a Farming Operation (Continued)

C Example 1 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC and the total value of the farming operation.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	24,000	12,000	12,000	Active	Active	48,000
Partner B	12,000	24,000	12,000	Active	Active	48,000
Partner C	12,000	24,000	12,000	Active	Active	48,000
Partnership ABC		99,000	21,000			120,000
Total	84,000 <u>1/</u>	159,000	57,000	0	0	300,000

1/ Includes the rental value of the land contributed by the share-rent landlord. Crop-share rent for the land is valued at \$36,000.

The total value of the farming operation was **determined** as follows.

The rental value of all the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$24,000
- Partner B's contribution of cash-rented land with a value of \$12,000
- Partner C's contribution of owned land with a rental value of \$12,000
- share-rented land with a value of \$36,000 that is **not** attributed to any 1 partner or to the partnership.

Note: If land is owned, a rental value that is normal for the area **must** be used when determining its value.

53 Total Value of a Farming Operation (Continued)**C Example 1 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this farming operation and subtracting any equipment and land costs that will be expended by the partnership. The capital is derived by the following inputs:

- Partner A's contribution of \$12,000 of capital
- Partner B's contribution of \$24,000 of capital
- Partner C's contribution of \$24,000 of capital
- Partnership ABC's contribution of \$99,000 of capital.

The rental value of all of the equipment used on this farming operation is \$57,000. This rental value is derived by the following inputs:

- Partner A's contribution of owned equipment with a rental value of \$12,000
- Partner B's contribution of leased equipment with a rental value of \$12,000
- Partner C's contribution of owned equipment with a rental value of \$12,000
- Partnership ABC's contribution of owned equipment with a rental value of \$21,000.

Note: If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

Each partner is equally providing active personal labor and active personal management; therefore, no value is affixed to these contributions in determining the total value of the farming operation.

The total value of this farming operation is equal to \$300,000.

53 Total Value of a Farming Operation (Continued)**D Example 2**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 1,500 acres of cropland growing cotton and soybeans.

Partner A contributes land with a total rental value of \$5,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner B contributes land with a total rental value of \$5,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner C contributes land with a total rental value of \$5,000 to the partnership. Partner C owns this land.

Partnership ABC contributes land with a total rental value of \$69,000 to the farming operation. Partnership ABC owns this land. Partnership ABC contributes owned equipment with a rental value of \$57,000 and \$159,000 of capital to the farming operation. The capital is borrowed from a local bank and is **not** secured by any of the partners individually.

Partnership ABC will hire all of the labor needed to conduct this farming operation. The labor cost for this operation will be \$30,000.

Each of the partners share equally in the management of this operation and no additional management is hired.

53 Total Value of a Farming Operation (Continued)

D Example 2 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	5,000	0	0		Active	5,000
Partner B	5,000	0	0		Active	5,000
Partner C	5,000	0	0		Active	5,000
Partnership ABC	69,000	159,000	57,000	30,000		315,000
Total	84,000	159,000	57,000	30,000		330,000

The total value of the farming operation was **determined** as follows.

The rental value of all of the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$5,000
- Partner B's contribution of cash-rented land with a value of \$5,000
- Partner C's contribution of owned land with a rental value of \$5,000
- Partnership ABC's contribution of owned land with a rental value of \$69,000.

Note: If land is owned, a rental value that is normal for the area **must** be used when determining its value.

53 Total Value of a Farming Operation (Continued)**D Example 2 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this operation and subtracting any equipment, land, and labor costs that will be expended by the partnership. The capital for this operation is being provided by Partnership ABC.

The rental value of all of the equipment used on this farming operation is \$57,000. Partnership ABC is contributing owned equipment with a rental value of \$57,000.

Note: If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

All of the labor for this farming operation is hired by Partnership ABC and will cost \$30,000.

Each partner will equally provide active personal management; therefore, no value is affixed to this contribution in determining the total value of the farming operation.

The total value of this farming operation is equal to \$330,000.

54 Changes in Farming Operations

A Background

The Food Security Act of 1985, as amended by the Food, Conservation, and Energy Act of 2008, requires that the Secretary **not** approve, for purposes of applying payment limitations, any change in a farming operation that will increase the number of persons or legal entities for payment, unless the Secretary determines that the change is bona fide and substantive.

B Rule [7 CFR 1400.104]

COC may **not** approve any change in a farming operation, including, but not limited to, establishing a new farming operation containing any person or legal entity that was a member of the previous year's farming operation, that will otherwise increase the number of persons or legal entities to which payment limitation is applied for the current year, unless a substantive change in the farming operation occurs for the current year.

Note: The comparison for substantive change purposes is between the current year's operation and the previous year's operation.

C Substantive Change Requirements

If bona fide, the following are considered substantive changes.

Change	Requirement
Family Member	*--Adding a family member to a farming operation, according to the adult family member provision as specified in paragraph 138, allows recognizing the added family member.--* * * *
Land Rental	For a landowner only , a change from cash-rent to share-rent.

54 Changes in Farming Operations (Continued)

C Substantive Change Requirements (Continued)

Change	Requirement
Base Acres	<p>An increase through acquiring base acres not previously involved in the farming operation. The increase in base acres:</p> <ul style="list-style-type: none"> • must be at least 20 percent or more of the total base acres involved in the farming operation • will be applicable for the increase of only 1 person or legal entity to the farming operation. <p>A State Office specialist may approve additional persons or legal entities based on the magnitude and complexity of the change in the farming operation represented and if the increase in base acres supports additional persons or legal entities to the farming operation. See subparagraph D.</p>
Ownership	<p>A change in ownership by sale or gift of equipment or land from a person or legal entity previously engaged in the farming operation to a person or legal entity who has not been engaged in this operation is considered substantive, only if:</p> <ul style="list-style-type: none"> • the transferred amount is commensurate with the new person's or legal entity's share of the farming operation • the sale or gift of land or equipment was based on fair market value of the land or equipment • the former owner has no control over the sold or gifted land or equipment • the transaction was not financed by the former owner • preference was not given to the former owner to re-purchase the land or equipment at a later date.
Equipment	<p>The addition of equipment not previously involved in the farming operation may be considered substantive, if the rental value of the additional equipment contributed is commensurate with the new person's or legal entity's share of the rental value of all equipment used in the farming operation.</p>

Note: Substantive changes **must** be “arms length” business transactions. Documents **must** be provided to support any of the changes in this subparagraph.

54 Changes in Farming Operations (Continued)

D Increase in Base Acres

If base acres are increased more than 20 percent and the producer requests to add more than 1 additional person or legal entity for payment limitation the:

- producer **must**:
 - submit written request for additional persons or legal entities
 - include the reasons why additional persons or legal entities for payment limitation purposes are to be recognized
 - provide any other relevant documentation to support the request
- COC **must**:
 - document the request in the COC minutes
 - forward the request with comments or recommendations to the State Office
 - include all documentation provided by the producer
- State Office specialist designated to act on these requests **must**:
 - timely review requests and all supporting documentation
 - obtain STC comments, if determined necessary, on the request
 - approve or disapprove the requests
 - record all requests and determinations in the STC minutes
 - notify COC/County Office, in writing, of the determination
 - instruct COC/County Office to provide written notification of the determination to the producer, and include appeal rights if considered adverse.

54 Changes in Farming Operations (Continued)

E Considerations for Approving or Disapproving an Increase of Additional Persons or Legal Entities for Payment Limitation Purposes

State Office specialists are to consider at least all of the following:

- the amount of the increase in base acres
- the crops grown by the farming operation
- the diversity of the farming operation
- relationship of the existing members to the new members
- the programs for which the operation will be a participants
- other relevant information specific or unique to the request.

F Nonsubstantive Changes

The following are considered nonsubstantive changes:

- a decrease in the amount of land
- the dissolution of a legal entity
- any change **not** considered substantive for which the rules would require a more restrictive application of the payment limitation.

G Example 1 of Nonsubstantive Change

Situation: Three persons each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 limits for payment limitation purposes. The 3 persons propose a farming operation by forming a corporation in which each are equal stockholders in the entity. The entity would lease, for cash, a portion of the cropland previously operated by each of the persons. A total of 4 limits would result for payment limitation purposes.

Determination: Forming this legal entity and leasing the land formerly operated by the persons would **not** constitute a bona fide and substantive change. Continue to recognize the 3 persons as determined previously for payment limitation purposes. The new legal entity would **not** be considered eligible for payment.

Explanation: The same land is farmed by the same equipment and the same persons as the previous year. The stockholders hold total ownership of the legal entity and each stockholder produced agricultural products or participated in programs subject to limitation in the previous year.

54 Changes in Farming Operations (Continued)

H Example 2 of Nonsubstantive Change

Situation: A corporation operates land that it owns. A general partnership, consisting of the stockholders of the corporation, leases land owned by unrelated parties that was previously operated by the corporation. The corporation farm manager and other employees complete the farming activities for both operations with equipment owned by the corporation. Records are kept of time spent by the employees and equipment use for each of the farming operations. The corporation's bookkeeper prepares separate payrolls for the employees that reflect the time for each employee on each farming operation. Invoices prepared on behalf of the corporation are issued to the general partnership for the equipment use and cropping expenses to represent its share of the operating expenses. Separate limitation was requested for the corporation and each of the members of the general partnership.

Determination: Changes in bookkeeping for the manner records are kept does **not** constitute or demonstrate a substantive change. Continue to recognize **only** the corporation for payment limitation purposes.

Explanation: The members of the general partnership, who hold total ownership of the corporation, are farming the same land with the same equipment previously operated by the corporation. Only a single farming operation of the corporation exists even though separate books are kept in an effort to represent a separate farming operation of the general partnership.

***--I If Substantive Change Is Not Met**

If there is an increase in the number of persons or legal entities subject to limitation in a farming operation that results in applying the substantive change provisions and a substantive change is **not** met:

- continue to recognize the persons or legal entities for payment limitation purposes that were recognized in the previous year
- consider the new persons or legal entities who did **not** meet the substantive change ineligible for payment.

Note: The eligible person's or legal entities' shares **cannot** be adjusted to circumvent the ineligibility of the new person or legal entity.--*

***--55 Applying the Substantive Change Rule**

A Determining Whether Substantive Change Rule Applies

Substantive change rule applies when both are present:

- increase in the number of limitations for payment
- commonality between the new farming operation in the current year and a farming operation in the previous year.

B Commonality Between Farming Operations

Elements of commonality include:

- interest in legal entities
- land
- legal entities
- persons/individuals.--*

55 Applying the Substantive Change Rule

C When Substantive Change Rule Applies

This table illustrates when a substantive change is **required**.

Substantive change rule only applies for...	if...
a new person beginning to farm as an individual or as a member of a joint operation	the person was part of a legal entity that farmed in the previous year and the individual will farm some of the same land the entity farmed in the previous year.
a new joint operation	some, but not all, of the members of the new joint operation farmed in the previous year.
an existing joint operation	<p>*--1 or more new members of the existing joint operation--* did not farm in the previous year and there is an overall increase in the number of limits.</p> <p>Note: If there is no overall increase within the joint operation, substantive change is still required if any of the departing members continue to farm on the same land farmed by the joint operation in the previous year.</p>
a new legal entity	1 or more members of the legal entity farmed in the previous year and the legal entity will farm some of the land farmed by its members in the previous year.

D When Substantive Change Rule Does Not Apply

This table illustrates when substantive change rule does **not** apply.

Substantive change rule does not apply for...	and...
the new person beginning to farm as an individual	the person was not part of any farming operation in the previous year.
a new joint operation	none of the members farmed or were associated with any farming operation in the previous year.
a new legal entity	none of the shareholders farmed or were associated with any farming operation in the previous year.
an existing legal entity	1 or more shareholders were added.
	Note: The legal entity remains restricted to 1 limitation regardless of the number of shareholders.
* * *	* * *

*--**Note:** The substantive change rule does not apply to spouses.--*

--56 Substantive Change Rule for Persons*A Example 1**

Situation: In the previous year, Corporation AB, comprised of Person A and Person B, each with an equal share, produced program crops and participated in program subject to payment limitation.

For the current year, Corporation AB and Person A will each operate part of the land that was in the previous year's farming operation of Corporation AB. Both Corporation AB and Person A will be participating on programs subject to payment limitation in the current year.

Determination: Substantive change will be **required** for the current year because:

- Person A represents an additional payment limitation as compared to the previous year
- Person A has an interest in Corporation AB that produced program crops and participated in programs subject to payment limitation in the previous year
- Person A will operate land that was part of the farming operation of Corporation AB in the previous year.

B Example 2

Same as in Example 1, except Person A, as an individual, will operate all of the land that was farmed by Corporation AB in the previous year. Person A will participate in programs subject to payment limitation. Corporation AB will no longer be farming and has dissolved.

Determination: Substantive change will not be required for the current year because:

- Person A does not represent an additional payment limitation as compared to the previous year
- Corporation AB is no longer farming in the current year.--*

* * *

*--57 Substantive Change Rule for Joint Operations

A Example 1, Joint Operation Existed in the Previous Year

Situation: In the previous year, General Partnership ABC, comprised of Persons A, B, and C, each with an equal share, participated in programs subject to payment limitation. Person D conducted a separate farming operation and participated in programs subject to payment limitation.

For the current year, Person D became a member and the partnership that is now Partnership ABCD; all with equal shares. Partnership ABCD will operate all of the land operated in the previous year by all of the current members. Partnership ABCD will participate in programs subject to payment limitation in the current year.

Determination: Substantive change is **not** required for the current year because:

- Person D participated in programs subject to payment limitation in the previous year
- Person D, by joining the existing partnership, does **not** represent an additional payment limitation for the current year.

B Example 2, Joint Operation Existed in the Previous Year

Situation: Same as Example 1, except Person D did **not** farm and was **not** part of a farming operation in the previous year. Person D became a member of Partnership ABCD, all with equal shares. Partnership ABCD will operate part of all the land operated in the previous year and participated in programs subject to payment limitation in the current year.

Determination: Substantive change is **required** for the current year because:

- Person D represents an additional payment limitation as compared to the previous year
- Person D neither farmed nor was part of a farming operation in the previous year.--*

--57 Substantive Change Rule for Joint Operations (Continued)*C Example 1, New Joint Operation****Situation:**

Situation: In the previous year, Dad participated in programs subject to payment limitation on his own individual farming operation.

In the current year, Dad and adult Son form a 70/30 general partnership named DS Farms. Son did **not** have any farming interest in the previous year. DS Farms will farm all of the land that Dad farmed individually in the previous year and participate in programs subject to payment limitation.

Determination: Substantive change is **required** for the current year because:

- DS Farms is a new farming operation
- DS Farms will operate all of the land farmed by 1 of the members in the previous year
- forming DS Farms represents an increase in the number of limitations from the previous year.

D Example 2, New Joint Operation

Situation: In the previous year, JT Farms Inc., comprised of brothers Jake and Tim with equal shares, conducted a farming operation and participated in programs subject to payment limitation.

In the current year, JT Farms Inc. stopped farming. Jake and Tim formed a 50/50 general partnership named Switch Grass Farms and will lease all the farm equipment need from JT Farms Inc. Switch Grass Farms will operate all of the land farmed in the previous year by JT Farms and will participate in programs subject to payment limitation.

Determination: Substantive change is **required** for the current year because:

- Switch Grass Farms is a new joint operation
- Switch Grass Farms will operate all of the land operated in the previous year by a farming operation in which both members were associated
- forming Switch Grass Farms represents an increase in the number of payment limitations from the previous year.

Note: Substantive change is **required** to recognize an increase in limitations. If substantive change is **not** met, only 1 limitation will be recognized.--*

* * *

--58 Substantive Change Rule for Legal Entities*A Example 1, New Legal Entity**

Situation: In the previous year, Persons A and B participated in programs subject to payment limitation on their respective, individual farming operations. Person C did **not** have any farming interests.

For the current year, Persons A, B, and C formed corporation ABC Inc. ABC Inc. will operate part of the land operated in the previous year by Person A and will participate in programs subject to payment limitation.

Determination: Substantive change is **required** for the current year because:

- ABC Inc. represents an additional payment limitation as compared to the previous year
- Persons A and B, both interest holders in ABC Inc., participated in programs subject to payment limitation in the previous year
- ABC Inc. will operate part of the land farmed by Person A in the previous year.

B Example 2, New Legal Entity

Situation: In the previous year, Persons A and B participated in a programs subject to payment limitation on their respective, individual farming operations. Person C did **not** have any farming interests.

For the current year, Persons A, B, and C form corporation ABC Inc. ABC Inc. will operate only the land operated in the previous year by Person Z and will participate in programs subject to payment limitation. Person Z retired from farming.

Determination: Substantive change is **not** required for the current year because:

- ABC Inc. did **not** participate in programs subject to payment limitation in the previous year
- ABC Inc. will **not** operate any land that was part of the farming operations of Persons A or B in the previous year.--*

***--58 Substantive Change Rule for Legal Entities (Continued)**

C Example 3, Existing Legal Entity

Situation: Smith Family Farms Inc., comprised of all family members, participated in programs subject to payment limitation the previous year.

In the current year, 2 additional family members become stockholders in Smith Family Farms Inc. The additional stockholders did **not** have any farming interest in the previous year. Smith Family Farms Inc. will farm all of the land it operated in the previous year and will participate in programs subject to payment limitation.

Determination: Substantive change is **not** required because the addition of 1 or more stockholders to Smith Family Farms Inc. does **not** represent an increase in the number of payment limitations from the previous year.--*

Section 6 Actively Engaged Determinations

Subsection 1 Actively Engaged Considerations

61 General Considerations

A Introduction

For a person or legal entity to be considered actively engaged in farming, the participant **must** make a significant contribution of certain farming inputs. This paragraph lists and defines significant contributions.

B General Provisions

In general, for a person or legal entity to be considered actively engaged in farming, **all** the requirements of this table **must** be met.

Item	Requirement
1	Significant “left-hand” contributions to the farming operation of 1 or a combination of the following: <ul style="list-style-type: none"> • capital • equipment • land. <p>Note: See paragraph 127 for exception.</p>
2	Significant “right-hand” contributions to the farming operation of 1 or a combination of the following: <ul style="list-style-type: none"> • active personal labor • active personal management. <p>Note: See paragraph 62 for exception.</p>
3	A claimed share of the profits or losses from the farming operation that is commensurate with contributions to the farming operation.
4	Contributions that are at risk.

C Definition of Capital

For payment limitation purposes, capital means the funding provided by a person or legal entity to the farming operation for the operation to conduct farming activities.

61 General Considerations (Continued)**D Definition of Land**

For payment limitation purposes, land means farmland consisting of cropland, pastureland, wetland, or rangeland that meets the specific requirements of the applicable program.

E Definition of Equipment

For payment limitation purposes, equipment means the machinery and implements used by the farming operation to conduct activities of the farming operation. This includes:

- machinery and implements for:
 - land preparation, planting, cultivating, or harvesting of the crops involved
 - establishing and maintaining conservation cover crops or conservation use acreages
 - conducting livestock operations
- irrigation equipment that is:
 - **not** of a permanent nature
 - commonly used in the area.

F Definition of Active Personal Labor

Active personal labor means personally providing physical activities necessary in a farming operation. These activities include physical activities:

- involved in land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities
- required to establish and maintain conserving cover crops or conserving use acreages
- required in livestock operations.

61 General Considerations (Continued)**G Active Personal Management**

Active personal management is personally providing:

- the general supervision and direction of activities and labor involved in the farming operation
- services, whether performed on-site or off-site, reasonably related and necessary to the farming operation, including any of the following:
 - supervision of activities necessary in the farming operation
 - business-related actions that include discretionary decision making
 - evaluation of the financial condition and needs of the farming operation
 - assistance in structuring or preparing financial reports or analyses for the farming operation
 - consultations in or structuring of business-related financing arrangements for the farming operation
 - marketing and promoting agricultural commodities produced by the farming operation
 - acquiring technical information used in the farming operation
 - any other management functions necessary to conduct the farming operation and for which the operation would ordinarily be charged a fee.

H Hybrid Seed Producers

The existence of a hybrid seed contract for a producer shall **not** be taken into account when making an actively engaged in farming determination with respect to the producer. However, all other actively engaged in farming provisions shall apply.

62 Landowner Exemption

A Actively Engaged Rule

A landowner shall be considered actively engaged in farming with respect to the owned land if **all** of the following requirements are met.

Item	Requirement
1	The landowner contributes owned land to the farming operation for which the landowner receives rent or income for the use of the land, based on the land's production or the operation's operating results.
2	The landowner's share of the profits or losses from the farming operation is commensurate with the landowner's contribution to the operation.
3	The landowner's contributions are at risk.

B Applicability of Rule

This rule applies to landowners who:

- are persons
- are persons with a life estate in the land
- are legal entities, such as corporations, trust, or estates
- have an undivided interest in the land

* * *

- are members of a joint operation if the joint operation holds title to the land.

Note: This rule applies to joint operations only if 1 of the following applies:

- the members submit documentation to show the title to the land owned by the joint operation will revert to the individual members after dissolution of the joint operation according to each member's share in the joint operation

Note: This requirement is considered met if the documentation provides that upon dissolution of the joint operation, the land will be sold and the proceeds divided according to each member's share in the joint operation.

- if there is no documentation otherwise and the Regional Attorney advises that State law provides that upon dissolution of the joint operation the land will be sold and the proceeds divided according to each member's share in the joint operation.

63 Landlord**A Actively Engaged Rule**

A landlord who is **not** a landowner shall be considered to be actively engaged in farming under the same rules as any other person or legal entity that is **not** a landowner.

Notes: If the landlord provides leased or rented land to an operation in return for a share of the crop, the land will be considered a contribution. Other contributions, as applicable, are required.

See paragraph 91 for cash-rent tenant requirements.

B Example 1

Situation: Landowner A cash leases land to Person B. Person B subleases the land to Operator C. Person B contributes land and does **not** contribute a significant amount of active personal labor or active personal management to the farming operation.

Determination: Person B is **not** actively engaged in farming. Person B **cannot** be considered to be actively engaged in farming because of the landowner provision, since Person B is a landlord and **not** a landowner. Landowner A is **not** actively engaged on this farming operation since cash-rent is received for using the land. A separate determination will be made for Operator C.

63 Landlord (Continued)

C Example 2

Situation: Person D cash leases land from Landowner E. Person D subleases the land to Producer C on a share-rent basis. Person D contributes the land and active personal management to the farming operation.

Determination: Because Person D cash-rents the land from Landowner E, Person D:

- is a cash-rent tenant

Notes: A cash-rent tenant is eligible to receive program payments on the cash-rented land, if the cash-rent tenant provides a significant contribution of either of the following:

- active personal labor and capital, equipment, or land
- active personal management and equipment.

See paragraph 91 for cash-rent tenant requirements.

- is **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

Because Person D has provided a significant contribution of land and management, Person D can be considered actively engaged in farming. However, Person D is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made.

A separate determination will be made for Producer C.

Landowner E is **not** considered actively engaged in farming for this farming operation.

64 Percent of Cropland Factor

A Introduction

In some cases, producers may only be eligible for payment for a portion of the cropland in the farming operation. Therefore, FSA shall determine the percentage of the farming operation that is eligible for payment. This is determined based on the percent of cropland.

B When to Use the Percent of Cropland Factor

Use percent of cropland factor when a producer:

- does **not** provide a significant contribution of active personal labor or active personal management to the entire farming operation
- is actively engaged in farming and eligible for payment on a portion of the land in the farming operation because of the landowner provision
- is a cash-rent tenant and is **ineligible** for payment for the cash-rented land.

Note: The automated system does **not** handle cases where the producer is actively engaged on some, but **not** all farming operations.

C Applying the Percent of Cropland Factor

*--The cropland factor **only** applies to programs subject to the actively engaged in farming requirements and the cash-rent rule.--*

64 Percent of Cropland Factor (Continued)

***--D Determining the Factor**

Determine a “percent of cropland” factor according to this table.

Step	Action
1	List the total cropland acres for each farm in the producer’s farming operation and total the acres.
2	List the cropland acres owned by the producer on each of those farms and total the acres. Note: Also include cropland acres that are not cash-rented and for which the producer meets the requirements to be eligible for payment.
3	Divide the result of step 2 by the result of step 1.
4	Multiply the factor from step 3 times the producer’s payments earned on each farm.
5	Pay the producer the adjusted payment allowed for each farm as determined by step 4. Note: This adjusted payment may also represent the ownership percentage of the partners, stockholders, or members of a corporation or similar entity, that met the requirements of actively engaged in farming if total contributions of active personal labor and/or active personal management to the farming operation are considered significant.

64 Percent of Cropland Factor (Continued)

E Example 1

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

<p>Farm 20 Tract 1 - 100 acres Operator - Sam Brown Owner - Sam Brown Rental - N/A</p>
<p>Farm 20 Tract 2 - 100 acres Operator - Sam Brown Owner - Pete Smith Rental - Cash lease</p>

Result: The farming operation for Sam Brown is the entire acreage on Farm 20. There is no farming operation for Pete Smith because he does **not** have an interest in any crop or crop proceeds.

Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Sam Brown owns 50 percent of the cropland in his farming operation. Therefore, payments to Sam Brown would be subject to a 50 percent of cropland factor.

64 Percent of Cropland Factor (Continued)

F Example 2

This example is the same as example 1, **except** the tracts are **not** combined as 1 farm. In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

<p>Farm 21 100 acres Operator - Sam Brown Owner - Sam Brown Rental - N/A</p>
--

<p>Farm 22 100 acres Operator - Sam Brown Owner - Pete Smith Rental - Cash lease</p>
--

Result: The farming operation for Sam Brown is the entire acreage on Farm 21 and Farm 22. There is **no** farming operation for Pete Smith because he does **not** have an interest in any crop or crop proceeds.

Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Sam Brown owns 50 percent of the cropland in his farming operation. Therefore, payments to Sam Brown would be subject to a 50 percent of cropland factor.

64 Percent of Cropland Factor (Continued)**G Example 3**

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

Farm 23
100 acres
Operator - Sam Brown
Owners - Sam Brown and Pete Smith (undivided joint interest)
Rental - Cash lease

Result: Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Because Sam Brown has an undivided ownership interest in the entire acreage in his farming operation, the percent of cropland owned is 100 percent. Accordingly, Sam Brown is actively engaged in farming on 100 percent of his farming operation and is eligible to receive 100 percent of the payment earned.

64 Percent of Cropland Factor (Continued)

H Example 4

In this example, Sam Brown and Pete Smith each have a 50 percent share in the partnership. The partnership and the members do **not** have any other farming interests. Sam Brown shares in the pro rata share of all crops, regardless of where the crops are planted. The partnership agreement stipulates that upon dissolution, the land ownership will revert to the members according to their current shares of the partnership. The partnership hires all labor and management necessary to conduct the farming operation.

<p style="text-align: center;">Farm 24 Tract 1 - 100 acres Operator - Brown and Smith, a general partnership Owner - Sam Brown Rental - .3333 crop share</p>
<p style="text-align: center;">Farm 24 Tract 2 - 100 acres Owner - Brown and Smith, a general partnership Rental - N/A</p>

Result: The partnership's farming operation is the entire acreage in Farm 24.

Sam Brown's farming operation is the acreage in tract 1.

Because the members of the partnership do **not** provide a significant "right-hand" contribution to the farming operation, the members of the partnership are only considered to be actively engaged in farming under the landowner exemption for that portion of their farming operation represented by owned land. Therefore, a 50 percent of cropland factor of would apply to payments made to the partnership.

A percent of cropland factor of 1.000 would apply to Sam Brown since he is considered to be actively engaged in farming on his entire farming operation.

64 Percent of Cropland Factor (Continued)

I Example 5

This example is similar to example 4, **except** the tracts are **not** combined as 1 farm. In this example, Sam Brown and Pete Smith are members of Brown and Smith Partnership. Neither the partnership nor the members have any other farming interests. The partnership agreement stipulates that upon dissolution, the land ownership will revert to the members according to their current shares of the partnership. The partnership hires all labor and management necessary to conduct the farming operation.

<p style="text-align: center;">Farm 25 100 acres Operator - Brown and Smith, a general partnership Owner - Sam Brown Rental - .3333 crop share</p>
--

<p style="text-align: center;">Farm 26 100 acres Operator - Brown and Smith, a general partnership Owner - Brown and Smith, a general partnership Rental - N/A</p>
--

Result: The partnership's farming operation consists of Farm 25 and Farm 26. Sam Brown's farming operation consists of the acreage in Farm 25, **only**. Because neither member of the partnership provides a significant "right hand" contribution to the farming operation, the members of the partnership may **not** be considered actively engaged in farming on the entire farming operation under the person or joint operation provisions. The members of the partnership, as landowners of Farm 26, are considered actively engaged in farming under the landowner exception.

Sam Brown, as individual landowner of Farm 25, is considered actively engaged in farming under the landowner exception. This is 100 percent of Sam Brown's individual farming operation. Sam Brown's interest in the partnership is a separate farming operation.

The partnership owns 50 percent of the cropland in its farming operation. Therefore, the members of the partnership are actively engaged in farming on 50 percent of the partnership's farming operation and are entitled to receive 50 percent of the partnership's earned payment on each farm in the farming operation.

64 Percent of Cropland Factor (Continued)

J Example 6

In this example, Brown, Smith, Black, and Jones Partnership is made up of the 4 individual landowners. The partnership and the members of the partnership do **not** have any other farming interests. Each farm is of equal size and value. The contributions of each partner are commensurate and at risk. Each landowner contributes their land to the partnership, so no rent will be paid. All payments go to the partnership.

The partnership hires all labor and management necessary to conduct the farming operation.

<p style="text-align: center;">Farm 27 100 acres Operator - Brown, Smith, Black, and Jones, a general partnership Owner - Sam Brown Rental - N/A</p>
--

<p style="text-align: center;">Farm 28 100 acres Operator - Brown, Smith, Black, and Jones, a general partnership Owner - Pete Smith Rental - N/A</p>

<p style="text-align: center;">Farm 29 100 acres Operator - Brown, Smith, Black, and Jones, a general partnership Owner - Henry Black Rental - N/A</p>
--

<p style="text-align: center;">Farm 30 100 acres Operator - Brown, Smith, Black, and Jones, a general partnership Owner - Bill Jones Rental - N/A</p>

Result: The farming operation for the partnership consists of all the acreage in Farms 27, 28, 29, and 30. Because the members do **not** provide “right hand” contributions, the members of the partnership are **not** actively engaged in farming under the person or joint operation provisions. However, each person is actively engaged in farming with respect to the actual land owned under the landowner exception.

Because the members of the partnership are **not** actively engaged in farming on the entire farming operation, only that portion earned with respect to the owned land may be paid. The percent of cropland owned by each owner is 25 percent. Accordingly, a 25 percent of cropland factor would be applied to the partnership’s payment on each farm.

Subsection 2 Specific Rules for Contributions

71 Significant Contribution of Capital, Equipment, and Land

A Introduction

When a significant contribution of capital, equipment, or land is required, use the rule in this paragraph to determine what is considered significant.

B Rules for Significant Contributions

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

Item	Rule
Capital	The capital must have a value equal to at least 50 percent of the person's or legal entity's commensurate share of the total capital necessary to conduct the farming operation, excluding outlays of capital for land or equipment.
Equipment	The equipment must have a rental value equal to at least 50 percent of the person's or legal entity's commensurate share of the total rental value of the equipment necessary to conduct the farming operation.
Land	<p>The land must have a rental value equal to at least 50 percent of the person's or legal entity's commensurate share of the total rental value of the land necessary to conduct the farming operation.</p> <p>Note: Share-rented land is a contribution of the landlord, not the share-renter.</p>
Any combination of capital, equipment, and land.	The combined contribution of capital, equipment, and land must have a value equal to 30 percent of the person's or legal entity's commensurate share of the total value of the farming operation.

72 Specific Rules for Capital

A Introduction

For capital to be a significant contribution to the farming operation, the capital contributed **must** meet the requirements of this paragraph.

B General Rule

The capital **must** be contributed directly to the farming operation from a fund and account separate and distinct from that of any other person or legal entity with an interest in the farming operation.

Capital contributions to a farming operation **do not** include:

- the value of labor or management
- outlays for land or equipment.

C Source of Capital

The capital may be a direct out-of-pocket input of either of the following:

- a specified sum by the person, legal entity, joint operation, members of a joint operation, or combined State producer
- an amount borrowed by the person or legal entity.

Note: Current year advance program payments, such as advance direct payments, are **not** considered a capital contribution for purposes of meeting the requirements of actively engaged in farming. The applicant is **not** eligible to receive advance program payments until **after** the determination of actively engaged in farming is made by COC or reviewing authority.

72 Specific Rules for Capital (Continued)

D Borrowed Capital

Capital used as a significant contribution may be borrowed. The rules in this table apply to borrowed capital.

IF the farming operation is conducted by either of the following...	THEN borrowed capital must...
<ul style="list-style-type: none"> • a person • a joint operation, *--in which the--* capital is contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation • in whose farming operation this person or joint operation has an interest.
<p>***</p> <ul style="list-style-type: none"> • a legal entity • a joint operation, *--in which the capital is contributed by the joint operation rather than by a member--* 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation, except all members of the joint operation , or all shareholders of the legal entity, to which the loan is made • in whose farming operation this legal entity or joint operation has an interest. <p>Note: See example in subparagraph 139 C.</p>

73 Specific Rules for Equipment

A Introduction

To be credited as a significant contribution to the farming operation, owned or leased equipment **must** meet the requirements of this paragraph.

B Leased Equipment

The equipment may be leased from any person, legal entity, or joint operation; however, use the following table to determine if restrictions apply.

IF the equipment is leased from...	THEN the...
another person, legal entity, or joint operation that has an interest in the farming operation	producer must : <ul style="list-style-type: none"> be able to prove to COC that the equipment was leased at a fair market value make the payment within the time determined by COC to be reasonable and customary for the area, taking into consideration whether the equipment is leased by the hour, day, or acre, or on an annual basis.
a joint operation that has 1 or more members in common with the producer to whom the equipment is leased	
a person, legal entity, or joint operation not otherwise indicated in this table	restrictions provided in this table do not apply.

73 Specific Rules for Equipment (Continued)

C Financing Rules for Equipment

The restrictions on financing for equipment in this table apply to both owned and leased equipment contributed for credit as a significant contribution.

IF the farming operation is conducted by either of the following...	THEN the equipment must...
<ul style="list-style-type: none"> • a person •*--a joint operation, in which the equipment--* is contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation • in whose farming operation this person or joint operation has an interest.
<p>***</p> <ul style="list-style-type: none"> • a legal entity •*--a joint operation, in which the equipment is contributed by the joint operation rather than by a member--* 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation, except members of the joint operation, or all the shareholders of the legal entity, to which the loan is made • in whose farming operation this legal entity or joint operation has an interest. <p>Note: See example in subparagraph 139 C.</p>

73 Specific Rules for Equipment (Continued)**D Effects of Borrowed Capital on Equipment Contribution**

If any capital was borrowed by the person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, the cash-leased equipment will **not** be considered as a significant contribution unless the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

E Occasional Exchange of Equipment

The occasional exchange of equipment, including labor, with a neighbor will **not** affect the contribution determination if each person or legal entity has adequate equipment, through ownership or lease, to conduct their farming operation in a manner normally acceptable for the area.

74 Specific Rules for Land**A Introduction**

To be considered a significant contribution to the farming operation, owned or cash leased land **must** meet the requirements of this paragraph.

B Leased Land

The land may be leased from any person, legal entity, or joint operation.

If the land is leased from another person, legal entity, or joint operation that has an interest in any crop or crop proceeds in the farming operation, the producer **must**:

- be able to prove to COC that the land was leased at a fair market value
- make the payment within the time determined by COC to be reasonable and customary for the area.

Note: Share-rented land is a contribution of the landlord, **not** the share-renter.

74 Specific Rules for Land (Continued)

C Financing Rules for Land

The restrictions in this table apply to both owned and leased land contributed for credit as a significant contribution.

IF the farming operation is conducted by either of the following...	THEN the land must...
<ul style="list-style-type: none"> • a person •*--a joint operation, in which the land is-- contributed by a member of the joint operation rather than by the joint operation itself 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the applicable person or member • not have been acquired as a result of a loan (including land acquired by Contract of Deed, Deed of Trust, Land Contract, or other similar arrangement) made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation • in whose farming operation this person or joint operation has an interest.
<p>***</p> <ul style="list-style-type: none"> • a legal entity •*--a joint operation, in which the land is contributed by the joint operation rather than by a member--* 	<ul style="list-style-type: none"> • be contributed directly to the farming operation by the legal entity or joint operation • not have been acquired as a result of a loan (including land acquired by Contract of Deed, Deed of Trust, Land Contract, or other similar arrangement) made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation: <ul style="list-style-type: none"> • that has an interest in the farming operation, except members of the joint operation, or all the shareholders of the legal entity, to which the loan is made • in whose farming operation this legal entity or joint operation has an interest. <p>Note: See example in subparagraph 139 C.</p>

74 Specific Rules for Land (Continued)**D Effects of Borrowed Capital on Land Contribution**

If any capital was borrowed by a person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, cash leased land will **not** be considered a significant contribution **unless** the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

E Recording Land Contributions

All land involved in a farming operation is to be recorded in the following:

- CCC-902 Continuation, Part A
- CCC-902E, Part E
- CCC-902I, Part C
- *--CCC-902I Short Form, Part C.--*

75 Significant Contribution of Active Personal Labor or Management

A Introduction

[7 CFR 1400.3] When a significant contribution of active personal labor or active personal management is required, use the rules in this paragraph to determine what is considered significant.

B Rules on Significant Contribution

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

Item	Rule
Active personal labor.	The active personal labor must be an amount that is the smaller of: <ul style="list-style-type: none"> • 1,000 hours per either FY or crop year • 50 percent of the total hours that would be required to conduct a farming operation comparable in size to this person's or legal entity's commensurate share in the farming operation.
Active personal management.	The contribution of active personal management must be critical to the profitability of the farming operation, taking into consideration the person's or legal entity's commensurate share in the farming operation.
Any combination of labor and management.	Combined contributions of active personal labor and active personal management must have a critical impact on the profitability of the farming operation in an amount at least equal to the significant contribution of either consideration when taken alone.

Note: If a member of a joint operation receives a guaranteed payment for any part of a contribution of labor or management, **exclude** all of the specific type of contribution for which payment is received.

76 Specific Rules for Active Personal Labor or Management**A Introduction**

It is difficult to measure a significant management contribution. The required hours of labor will be different in 1 type of farming operation than another. In some cases, it is difficult to distinguish between labor and management.

B Basis for Decisions

Decisions **must** be based on COC's best judgment considering the:

- requirements in this Section
- intent of significant contribution provisions is to provide program benefits to bona fide farmers, personally providing meaningful inputs on the farm.

Note: COC's are given discretion to make the subjective decisions required.

C Requiring Proof

If necessary, COC may require proof of who provides:

- labor equal to 50 percent or more of the person's or legal entity's commensurate share of the labor required

Note: Proof of labor exceeding 1,000 hours is **not** required.

- management input critical to the overall profitability of the farming operation
- a satisfactory contribution of a combination of labor and management.

77 Inputs for Commensurate Contributions

A Introduction

For a farming input to be considered toward satisfying the requirements of commensurate contributions, the requirements of this paragraph **must** be met.

B Rules for Commensurate Contributions

After the requirements for significant contributions have been met, apply the rules in this table when determining commensurate contributions.

Farming Input	General Rule	Requirements	
		IF the contribution was acquired as a result of a loan to the...	THEN the loan must...
<ul style="list-style-type: none"> Capital Equipment Land 	Include if contributed directly to the farming operation by the person or legal entity.	<ul style="list-style-type: none"> farming operation in which the person or legal entity has an interest person, legal entity, or farming operation: <ul style="list-style-type: none"> by the farming operation or any of its members, beneficiaries, or related entities that was guaranteed or secured by the farming operation or any of its members, beneficiaries, or related entities 	<ul style="list-style-type: none"> bear the prevailing interest rate have a repayment schedule normal for the area.
<ul style="list-style-type: none"> Labor Management 	Include all contributions of labor and management, including hired labor and hired management.	<p>If a member of a joint operation receives a guaranteed payment for any part of a labor or management contribution, exclude all of the specific type of contribution for which payment is received.</p> <p>Note: “Draws” or advances for a member that have an effect on the member’s share of the partnership or proceeds of the partnership are not considered a guaranteed payment.</p>	

78 Determining Commensurate Contributions

A Introduction

Use the guidelines in this paragraph to determine whether contributions are commensurate with shares.

B General Rule

Total contributions that are “within reason” of being equal to the claimed share of profits and losses shall be considered commensurate.

Note: COC’s shall **not** establish a specific tolerance for “within reason.”

C Determining Contributions

Use the steps in this table to determine each person’s or legal entity’s contributions to a farming operation.

Step	Action
1	Determine the total amount of each farming input needed to conduct the farming operation.
2	Determine the type and amount of farming inputs provided by the person or legal entity that meet the requirements in paragraph 77.
3	Determine the percentage of each input required to conduct the farming operation provided by the person or legal entity.
4	<p>Does the person or legal entity provide the same percentage of all inputs required to conduct the farming operation?</p> <ul style="list-style-type: none"> • If yes, consider the person or legal entity as providing that percentage of the farming inputs required to conduct the farming operation. • If no, determine the value of the inputs provided by the person or legal entity relative to the total amount of farming inputs required to conduct the farming operation.
5	Determine whether the person’s or legal entity’s contributions to the farming operation are commensurate with the person’s or legal entity’s claimed share of the farming operation. See subparagraph D.

78 **Determining Commensurate Contributions (Continued)****D Determining Commensurate Shares**

Use the steps in this table to determine whether contributions to a farming operation are commensurate with the claimed share of the profits or losses.

*--

Step	Review and Determination
1	<p>Review the person's or legal entity's claimed share of the profits or losses of the farming operation.</p> <p>For a joint operation, review the member's claimed share of the profits or losses of the farming operation.</p>
2	<p>Are the person's or legal entity's total contributions to the farming operation commensurate with the claimed share of the profits or losses of the farming operation?</p> <p>For a joint operation, are the member's total contributions to the farming operation commensurate with the claimed share of the profits or losses of the farming operation? If:</p> <ul style="list-style-type: none"> • yes, go to step 5 • no, go to step 3.
3	<p>Are the contributions by the person or legal entity that COC considers pertinent to the farming operation commensurate with the claimed share of the profits or losses of the farming operation?</p> <p>For a joint operation, are the contributions of the member that COC considers pertinent to the farming operation commensurate with the claimed share of the profits or losses of the farming operation? If:</p> <ul style="list-style-type: none"> • yes, go to step 5 • no, go to step 4.
4	<p>Determine the person or legal entity to be not actively engaged in farming.</p> <p>If a member of a joint operation, then determine the member of the joint operation to be not actively engaged in farming.</p>
5	<p>Determine the person or legal entity to be actively engaged in farming if all other provisions have been satisfied.</p> <p>If a member of a joint operation, then determine the member to be actively engaged in farming if all other provisions have been satisfied.</p>

78 Determining Commensurate Contributions (Continued)

E DD Responsibility

DD is responsible for:

- verifying that no “tolerance” for commensurate contributions is established in any county
- maintaining reasonable uniformity between counties
- ensuring that the integrity of the program is maintained.

79 Determining Contributions at Risk

A Introduction

In addition to other requirements for a person or legal entity to be considered actively engaged in farming, the contributions made by the person or legal entity **must** be at risk.

B General Rule

For a producer’s contribution to be considered at risk, there **must** be a possibility that the producer could suffer loss.

C Specific Rules for At Risk

Apply the rules in this table when determining whether contributions are at risk.

IF producer is a...	THEN the...
person	person’s contributions to the farming operation must be at risk.
joint operation	members’ contributions to the farming operation must be at risk.
legal entity	legal entity’s contributions to the farming operation must be at risk.

Section 7 Cash-Rent Tenant

91 Cash-Rent Tenant Rule

A Definition of Cash-Rent Tenant

Cash-rent tenant means a producer who rents land from another producer or landowner under either of the following conditions:

- for a fixed cash amount
- guaranteed crop share as the amount of the commodity to be paid in rent.

B Other Situations of Applicability

Cash-rent tenant provisions also apply to:

- tenants who rent land for zero dollars or farm the land in exchange for compensation other than cash, such as:
 - controlling weeds on land **not** owned
 - barter arrangements
- producers who have use of the land and there is **not** a lease agreement in place, such as:
 - individual operating land owned by his or her revocable trust
 - 1 spouse operating land owned by the other spouse.

***--Note:** In spousal operations, or if the grantor of a revocable trust is operating the land--* held by the trust, cash-rent tenant provisions will be considered to be met if both benefit from the land.

For these situations:

- record the arrangement in farm records as land leased for cash
- COC must determine whether the cash-rent tenant provisions have been met by the producer.

91 Cash-Rent Tenant Rule (Continued)***--C Payment Eligibility Requirements**

[7 CFR 1400.301(a)] In addition to meeting the requirements to be considered actively engaged in farming, a cash-rent tenant will be eligible to receive payments on cash-rented land if the cash-rent tenant makes either of the following:

- a significant contribution of active personal labor to the farming operation
- a significant contribution of equipment **and** a significant contribution of active personal management to the farming operation.

Note: The spousal provision in subparagraph 116 A for determining actively engaged in farming can also be used by spouses in meeting these requirements.

D Partial Eligibility

If a producer meets all requirements to be considered actively engaged in farming, but fails to meet the cash-rent tenant provisions in subparagraph C, the producer will be:

- eligible to receive payments on land in the farming operation that is **not** cash-rented
- subject to a reduction in payments with the application of a cropland factor according to paragraph 64.--*

91 Cash-Rent Tenant Rule (Continued)

E Specific Rules for Equipment

Use the rules in this table if a significant contribution of equipment is necessary to meet the requirements of the cash-rent tenant rule.

IF the cash-rent tenant...	THEN...
provides the harvesting equipment	the rental value of harvesting equipment is included when determining whether a significant contribution of equipment is met.
<p>meets both of the following requirements:</p> <ul style="list-style-type: none"> • custom harvesting is used in the cash-rent tenant's farming operation • the custom harvester has no interest in the farming operation 	<p>the rental value of harvesting equipment is not included when determining whether a significant contribution of equipment is met.</p> <p>Note: The rental value of harvesting equipment would still be considered in making actively engaged in farming determinations.</p> <p>Example: Person A, a cash-rent tenant, owns or leases all equipment for the farming operation except equipment needed for harvesting. Harvesting is custom hired. The custom harvester has no interest in the farming operation.</p> <p>The rental value of harvesting equipment shall not be included in determining the total rental value of equipment needed to conduct the farming operation for cash-rent tenant rule purposes.</p>
leases the equipment from the landlord	the lease and payment must meet the requirements of subparagraph 73 B.
leases the equipment from the landlord, or the same person or legal entity that is providing hired labor to the farming operation	<p>both of the following conditions must be met:</p> <ul style="list-style-type: none"> • contracts for leasing the equipment and the hired labor must be 2 separate contracts that reflect the fair market value of the leased equipment and the hired labor • cash-rent tenant must exercise complete control over using a significant amount of the equipment during the current crop year. <p>Note: <u>Complete control</u> means exclusive access and use by the tenant.</p>

92 Cash-Rent Tenant Example

A Example 1

Situation: Person A cash leases land from Landowner B. Person A subleases the land to Producer C on a share-rent basis. Person A contributes the land and active personal management to the farming operation.

Determination: Because Person A cash-rents the land from Landowner B, Person A is:

- a cash-rent tenant
- **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

Because Person A has provided a significant contribution of land and management, Person A can be considered actively engaged in farming. However, Person A is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made.

A separate determination will be made for Producer C.

Explanation: Landowner B is **not** considered to be actively engaged in farming for this farming operation, but may be considered actively engaged in farming for another farming operation.

B Example 2

Situation: A joint operation consists of Persons A, B, C, and D; all with equal shares. All land is cash-rented by the joint operation. Members A and B provide all of the equipment, Members C and D provide all the capital, all necessary labor is hired by the joint operation, and active personal management is provided equally by the members.

Determination: Only Members A and B meet the cash-rent tenant rule requirements because they provide management and equipment. Therefore, payment to the joint operation is limited to the amount represented by the shares held by Members A and B.

Explanation: Since all labor is hired by the joint operation, significant contributions of both equipment and active personal management are **required**. Members C and D do **not** provide any contributions of equipment and; therefore, do **not** meet the requirements of the cash-rent tenant rule required for payment eligibility.

92 Cash-Rent Tenant Example (Continued)**C Example 3**

Situation: Same as subparagraph B, **except** the joint operation provides all capital, equipment, and hired labor. Active personal management is equally provided by the members.

Determination: All members meet the cash-rent tenant rule requirement.

Explanation: Since all labor is hired by the joint operation, significant contributions of **both** equipment and active personal management of the members are required. A significant equipment contribution was provided by the joint operation and active personal management was provided by the members.

D Example 4

Situation: Same as subparagraph C, **except** the joint operation has all of the land custom farmed by unrelated persons and legal entities.

Determination: All members are ineligible for payment on the land cash-rented by the joint operation.

Explanation: Significant active personal labor contributions by the members, or a significant equipment and active personal management contribution, were **not** provided to the operation as required for payment eligibility.

92 Cash-Rent Tenant Example (Continued)**E Example 5**

Situation: A local Future Farmers of America chapter requests program payments on land that is cash-rented from an unrelated party. The chapter members are providing active personal labor and active personal management to the farming operation.

Determination: The National Future Farmers of America is a Federally chartered corporation with its purpose to create, foster, and assist subsidiary chapters composed of students enrolled in vocational agriculture in public schools. The corporation may **not** issue stock, or declare or pay any dividend.

All the partners, stockholders, or members with an ownership interest are providing active personal labor, active personal management, or a combination of active personal labor and active personal management (7 CFR 1400.204).

Even though the chapter members may be providing active personal labor and/or active personal management, they do **not** have the **required** ownership interest in the corporation. Consequently, Future Farmers of America chapters **cannot** be considered to have met the cash-rent tenant rule requirements on the rented land.

Part 4 Eligibility Determinations for Farming Operations

Section 1 General Determinations

116 Spouses

A Actively Engaged in Farming Rule for Spouses

Use this table for actively engaged in farming determinations involving spouses.

IF the spouses are both...	THEN...
farming together: <ul style="list-style-type: none"> • in a joint operation • as an entity 	if 1 spouse is determined actively engaged in farming, the other is credited with significant contributions of active personal labor and active personal management to the same farming operation. The requirements of significant contribution of capital land, or equipment, commensurate share and risk remain applicable. Note: This also includes the spouse's estate.
involved in separate farming operations	each spouse must independently meet all applicable requirements to be considered actively engaged in farming.

B Determinations for Spouses Example 1

***--Situation:** Spouse A and Spouse B have a joint farming operation comprised of 500 acres of rented land. In addition, Spouse B has 100 percent interest in Corporation X that is participating in CRP and earning annual payments.

- Spouse A and Spouse B jointly own all the equipment and provide all the capital for their farming operation.
- Spouse A contributes at least 50 percent of the active personal labor and a significant contribution of active personal management for the joint farming operation. Spouse B does not provide active personal labor or active personal management.
- Spouse A's and Spouse B's share of the profits or losses from the farming operation are commensurate with their contributions and the contributions are at risk.

Determination: Spouse A is considered to be actively engaged in farming because he or she is making both a left hand and right hand contribution. Spouse B is also making a left hand contribution, but is not making a right hand contribution. However, by using the actively engaged rule for spouses, Spouse B is credited with contributing labor and management; therefore, Spouse B is considered to be actively engaged. Spouse A and Spouse B are each eligible to receive their respective share of the total program payments and benefits received by the joint operation and subject to limitation. Any contributions necessary for payment eligibility credited to Spouse B are **only** applicable to the joint operation and do **not** apply--* to the Corporation X farming operation.

116 Spouses (Continued)

C Determinations for Spouses Example 2

***--Situation:** Spouse M and Spouse N have a joint farming operation comprised of 700 acres of owned and cash-rented land. Spouse N is an heir to the estate of his or her father who died in the previous year. Spouse N is a full-time employee at the local FSA office.

- Spouse M and Spouse N jointly own all of the equipment and provide all of the capital necessary for the farming operation.
- Spouse M contributes the majority of the active personal labor and the active personal management for the farming operation.
- Spouse N contributes active personal labor and active personal management, whenever able, to the farming operation, but the amount is **not** commensurate with his or her share.
- The estate owns land, of which Spouse N is an heir, and meets the requirements to be considered actively engaged in farming under the landowner provision.
- Spouse M and Spouse N's shares of the profits or losses from the farming operation are commensurate with their contributions to the farming operation and the contributions are at risk.

Determination: Spouse M, Spouse N, and the estate are all considered actively engaged in farming. Through the special provision for spouses, Spouse N is credited as making significant contributions of active personal labor and/or active personal management to the farming operation since Spouse M is considered to have met the requirement of actively engaged in farming. Both Spouse M and Spouse N made significant contributions of capital and equipment, and consequently, both met the requirements of the cash-rent tenant rule as well. In addition to his or her share of the program payments received through this joint farming operation, Spouse N will also be attributed payments earned by his or her father's estate according to his or her share held as an heir.--*

Further, for a person or legal entity to be considered actively engaged in farming for program payment purposes, the contributions of the person or legal entity must be at-risk and commensurate with the person's or legal entity's claimed share of the profit and loss of the farming operation. Failure to meet these requirements will result in the determination of ineligibility for payments under programs specified in 7 CFR Part 1400.
2. **INTEREST IN A FARMING OPERATION** – a person or legal entity is considered to have an interest in a particular farming operation if the person or legal entity owns or rents land to or from that farming operation; has an interest in the agricultural commodities produced on the operation; or is a member of a joint operation that either owns or rents land to or from the farming operation, or has an interest in the agricultural commodities produced on that operation.

To be considered a countable contribution for a person or legal entity, the capital must have been derived from a fund or account separate and distinct from that of any other person or entity involved in such operation. Countable capital does not include the value of any labor or management which is contributed to the farming operation. --*

121 Clubs, Societies, and Fraternal and Religious Organizations**A Rule [7 CFR 1400.103]**

Charitable organizations, including clubs, societies, fraternal, and religious organizations, shall be considered separate and distinct farming operations from the members of the organization or any other legal entity.

B Exceptions to Rule

If the land operated by the organization, or the production from the operation, may transfer to a legal entity that exercises control over the organization, the payments to the organization shall be attributed to the parent organization.

Note: If parent organization's TIN is used by the organization, the payments to the organization shall be attributed to the parent organization.

Important: The fact that an organization has a separate TIN does **not** mean that it qualifies for a separate limitation. If there is any indication that 1 organization exercises control over another organization and land or proceeds transfer to the parent organization, the payments shall be attributed to the parent organization and payments limited accordingly.

Example: If land owned by a church within a diocese would transfer to the diocese upon closure of the church, payments to the church would be attributed to the diocese.

C Example of Determinations for Charitable Organizations

Situation: A charitable organization forms other charitable organizations that are represented to be separate organizations. The other organizations have separate TIN's and each is recognized by IRS as qualifying as a charitable organization. However, there is evidence that the parent organization continues to exercise control over the other organizations, and that the land, or proceeds from the land, may transfer to the parent organization.

Result: All payments will be attributed to the parent organization.

123-125 (Reserved)

Section 2 Persons

126 Actively Engaged in Farming Determinations

A Rule [7 CFR 1400.201]

A person shall be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The person makes a significant contribution to the farming operation of both of the following: <ul style="list-style-type: none"> • capital, equipment, land, or a combination thereof • active personal labor, active personal management, or a combination thereof.
2	The person's share of the profits or losses from the farming operation is commensurate with the person's contribution to the farming operation.
3	The person's contributions are at risk.

B Other Participants That Use This Rule

This rule also applies to a person who is a:

- partner in a general partnership
- participant in a joint venture.

C Military Personnel

[7 CFR 1400.213] COC may determine a person who is called to active duty in the military during the program year actively engaged in farming according to this table.

IF the person is called to active duty in the military...	THEN COC...
before the determination is made	must determine that the person was making a conscious effort to be, and would have been determined to be, actively engaged in farming if not for being called to active duty in the military.
after the determination is made	shall allow the determination to be in effect for the program year.

127 Sharecroppers

A Rule [7 CFR 1400.209]

A sharecropper shall be considered actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The sharecropper makes a significant contribution of active personal labor to the farming operation for which the sharecropper receives a specified share of the crop produced on the farm.
2	The sharecropper's share of the profits or losses from the farming operation is commensurate with the contribution to the operation.
3	The sharecropper's contributions are at risk.

Note: To be considered actively engaged in farming under this provision, the person may:

- **not** receive wages for labor and be considered a sharecropper for this purpose
- be provided housing and “draw” cash advances to be deducted later from proceeds of the crop.

B Example

Situation: Person Y provides labor for Landowner Z on 500 acres of rice in exchange for a share of the crop. Person Y **only** contributes active personal labor to the farming operation and receives a cash advance that will be set off from the proceeds of the crop after harvest. Landowner Z provides Person Y with housing.

Determination: Person Y is considered to be actively engaged in farming since Person Y is a sharecropper and the requirements in subparagraph A are met. Landowner Z is considered to be actively engaged in farming since Landowner Z is a landowner.

128 Incapacitated Persons

A Introduction

This paragraph describes the requirements for a person who dies or becomes incapacitated during the program year to be determined actively engaged in farming,

B Rule [7 CFR 1400.210]

COC may determine a person who dies or becomes incapacitated during the program year actively engaged in farming according to this table.

IF the person dies or becomes incapacitated...	THEN COC...
before the determination is made	must determine that the person would have been determined to be, actively engaged in farming, if not for the person's death or incapacitation.
after the determination is made	shall allow the determination to be in effect for the program year.

Notes: This rule is also applicable to an entity if COC determines that the person who died or who became incapacitated would have qualified the legal entity as actively engaged in farming,

The following year, the person, the person's estate, or the legal entity, as applicable, **must** meet all of the necessary requirements to be actively engaged in farming for that year.

129 Case Examples**A Example 1**

Situation: Person Z rents 1,500 acres of land on a share-rent basis. Person Z owns the equipment and contributes at least 50 percent of the commensurate share of active personal labor and contributes 100 percent of the farming operation's management. In this situation, Person Z's share of the profits or losses from the farming operation is commensurate with Person Z's contributions to the operation and the contributions are at risk.

Determination: Person A is considered to be actively engaged in farming,

B Example 2

Situation: Person A rents land on a share-rent basis. Person A contributes a significant amount of leased equipment and a significant amount of active personal management to the farming operation. Capital is borrowed from another producer on the farm at the prevailing interest rate. The labor needed for Person Z's farming operation is hired. Person A's share of the profits or losses from the farming operation is commensurate with person A's contribution to the operation and the contributions are at risk.

Determination: Person A is considered to be actively engaged in farming since Person A contributes a significant amount of both equipment and active personal management. A contribution of capital, equipment, or land is used to meet the significant contribution.

--136 General Partnerships, Joint Operations, and Joint Ventures (Continued)*E Examples of Individual Operations and Joint Operations**

Example 1: Tom cash leases 400 acres and his brother John has all of the equipment used in the operation. Tom pays the cash lease, but they share in all other input costs. The crop is shared 60/40 percent. Both have a risk and share in the profits and losses in the farming operation.

The joint venture of Tom and John is recorded on CCC-902E.

Example 2: Jill cash leases 160 acres and plants the crop. Her brother Jack does all the spraying and harvesting in exchange for planting and trucking that Jill performs on land that Jack owns. Jack has no investment, interest, or risk in the growing crop and will **not** share in the profits or losses on the 160 acres that Jill leases.

Jack and Jill each have their own separate farming operations. Jack and Jill each complete CCC-902I.

Example 3: AB Corporation and CD Corporation cash rent 500 acres of land. AB Inc. pays the rent on 200 acres (40 percent of the land) and CD Inc. pays the rent on the balance (60 percent or 300 acres). Each corporation has separate financing and a separate line of equipment. Each corporation keeps track of the equipment use and the expenses on this property. The crop production from the 500 acres is shared 60/40 percent. Both corporations are at risk and share in the profits and losses from the operation of this rented land.

The joint venture of these 2 corporations is recorded on CCC-902E.

Example 4: Larry and Daryl each have their own farming operations and occasionally perform field work for the other. Although they also own a tractor and cotton stripper together, each has their own accounts, equipment, and financing. Each is at risk, but crops and expenses are **not** shared on any land operated by either of them.

Larry and Daryl each have their own separate farming operations. Larry and Daryl each complete CCC-902I.

Example 5: Joe is the tenant on Dave's farm with each sharing in the crop production. Joe provides the equipment, performs all of the labor and fieldwork necessary, and delivers Dave's share of the crop production to a local grain elevator. Dave's share of the crop is in exchange for the rent of the land. While Joe and Dave share in the crop production and each has a risk, their risk is **not** mutually shared.

Joe and Dave each have their own separate farming operations. Joe completes CCC-902I and Dave completes CCC-902I Short Form.--*

--137 Eligibility Determinations*A Rule [7 CFR 1400.203]**

Each member who shares in the income from a joint operation **must** be determined to be actively engaged in farming for the joint operation to be fully eligible for payment.--*

Members of a joint operation can be determined actively engaged in farming by meeting **all** of the requirements in the following table.

Item	Requirement
1	<p>Contributions to the farming operation of both of the following are made:</p> <ul style="list-style-type: none"> the member or joint operation makes a significant contribution of capital, equipment, or land, or a combination thereof each member makes a significant contribution of active personal labor or active personal management, or a combination thereof, that are: <ul style="list-style-type: none"> performed on a regular basis identifiable and documentable separate and distinct from contributions of any other member. <p>Note: See subparagraph 116 A for exceptions for spouses.</p>
2	<p>The member must provide satisfactory evidence that the contributions of land, labor, management, equipment, or capital to the joint operation are commensurate with the member's claimed share of the profits or losses of the joint operation. See *--subparagraphs 147 E, F, and G for recordkeeping, methods of proof, and verification--* requirements.</p>
3	<p>The member's contributions to the farming operation are at risk.</p>

B Separate and Distinct Contribution of Labor

If a member provides active personal labor to the joint operation's farming operation that is performed on a regular basis, and that is identifiable and documentable, the member will be considered to have met the requirement of a separate and distinct contribution of labor to the joint operation's farming operation.

C Contributions Not Commensurate

For a member of a joint operation whose contributions of inputs are not equal to his or her claimed share:

- if the contribution is less than commensurate, that member is not considered "actively engaged in farming" and ineligible to receive any payment earned by the joint operation
- if the contribution is at least commensurate, that member may receive his or her share of the payment earned by the operation, but this share cannot be increased because of the ineligibility of another member.

138 Family Members in a Joint Operation**A Definition [7 CFR 1400.3]**

Family member means a person to whom another member in the farming operation is related as lineal ancestor, lineal descendant, sibling, spouse, or otherwise by marriage.

The term family member shall include:

- great grandparent
- grandparent
- parent
- child, including legally adopted children and stepchildren
- grandchild
- great grandchild
- sibling of the family members in the farming operation
- spouse of family members.

B Making Determinations

In making determinations, COC shall consider the makeup of the operation at the time the determinations are made.

C Rule [7 CFR 1400.208]

A person who is an adult family member shall be considered actively engaged in farming for a joint operation composed of a majority of whom are family members, if **all** of the requirements in this table are met.

Item	Requirement
1	The family member makes a significant contribution of active personal management or active personal labor, or combination thereof, to the farming operation.
2	The family member's share of the profits or losses from the farming operation is commensurate with the family member's contribution to the operation.
3	The family member's contributions are at risk.

138 Family Members in a Joint Operation (Continued)

D Example 1

Situation: In 2008, Partnership AB consists of Person A and Person B, 2 unrelated person members. In 2009, Person C, an adult son of Person A, will join the partnership.

- Persons A and B will **each** provide a significant contribution of active personal labor and active personal management.
- Person C will provide a significant contribution of active personal labor.
- The partnership will provide all of the capital and equipment. The land is share leased by the partnership from 5 different landowners.

Determination: A majority of the persons of the joint operation are family members. Based on the contributions of each member, Persons A, B, and C are **each** considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

Person C is actively engaged in farming because of the family member provision, since the joint operation consists of 3 persons, a majority of whom are persons that are family members.

E Example 2

Situation: Father A has been farming owned land and rented land for many years. Son B, an adult, is starting to farm with his father. Son B contributes a significant amount of active personal labor. Father A contributes all of the farming operation's capital, equipment, and active personal management.

Determination: Father A and Son B are both considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

138 Family Members in a Joint Operation (Continued)**F Example 3**

Situation: In 2008, Partnership CD consisted of Person C and Grandfather D. In 2009, Grandson E is brought into the farming operation.

- Person C contributes all the capital and a significant amount of active personal management.
- Grandfather D contributes the use of a significant amount of equipment, owned land, and active personal management.
- Grandson E will provide all the active personal labor.

Determination: Person C, Grandfather D, and Grandson E will each be considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation.

G Example 4

Situation: ABC Partnership is a family held partnership consisting of Father A, Son B, and Daughter C. In 2009, Father A brings Son-in-law D into the farming operation.

- Daughter C, who is married to Son-in-law D, does **not** provide a significant amount of active personal labor or active personal management to the farming operation.
- Son B contributes a significant amount of capital, active personal labor, and active personal management.
- Father A originally contributed his owned equipment to the partnership and contributes some capital and a significant amount of active personal management.
- Son-in-law D contributes a significant amount of both active personal labor and active personal management to the farming operation.

Determination: Father A, Son B, and Son-in-law D are considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation. Daughter C is considered to be actively engaged in farming, if the requirements of paragraph 116 apply. Son-in-law D was brought into the farming operation using the family member provision.

138 Family Members in a Joint Operation (Continued)**H Example 5**

Situation: Mother A, Daughter B, and Son C are partners in a family partnership. Son D, a minor child, becomes a partner in 2009.

- Mother A contributes a significant amount of both capital and active personal management.
- Daughter B contributes a significant amount of both capital and active personal management.
- Son C contributes a significant amount of equipment, active personal labor, and active personal management.
- Son D contributes a significant amount of active personal labor.

Determination: Mother A, Daughter B, and Son C are considered to be actively engaged in farming. However, Son D is **not** considered to be actively engaged in farming because of the family member provision because he is **not** an adult family member.

139 Joint Operation Case Examples**A Example 1**

Situation: Partnership AB farms 2,000 acres of land. The partnership owns the equipment and the partners provide at least 50 percent of their commensurate share of active personal labor and a significant amount of active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

Determination: Partners A and B are considered to be actively engaged in farming and each have a separate payment limitation.

B Example 2

Situation: Partnership CD farms 2,000 acres of land. Each partner contributes a significant amount of both capital and active personal management to the farming operation. Labor is hired. Equipment and land are rented from third parties. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

Determination: Partners C and D are considered to be actively engaged in farming and each have their own respective payment limitation.

C Example 3

Situation: Partnership EFG farms 2,000 acres of land. The contributions of capital, land, and equipment are acquired from loans from a banking institution. The bank requires that all partners sign to guarantee the loan. The partners provide at least 50 percent of their commensurate share of active personal labor and a significant amount of active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contributions to the operation and each partner's contributions are at risk. None of the partners have any other farming interests.

Determination: Partners E, F, and G are considered to be actively engaged in farming. The fact that the contributions of capital, land, and equipment are guaranteed by the members does **not** prevent the contributions from being considered for a significant contribution. See subparagraphs 72 C, 72 D, and 73 C.

Section 4 Corporations, LLC's, LLP's, and LP's

--146 Determination of Ownership Interest--

A Ownership in Legal Entities

Ownership interest in a legal entity that receives payment subject to limitation for the program year will be determined according to the following table.

IF the legal entity...	THEN the date for the determination of ownership interest is....
existed on June 1 of the year for which program benefits were requested	June 1.
did not exist on June 1 of the year for which program benefits were requested	the date the legal entity was formed.

Voluntary acquisition of interest after June 1, or date legal entity was formed, does **not** reduce the ownership share of any interest holder for payment limitation purposes.

For interest held in other legal entities that have minor children as heirs, beneficiaries, or members, consider any program payments received by or attributed to that interest of the minor child as being attributed to the minor child's parent or legal guardian.

Note: If the minor child is considered separate for payment limitation purposes according to paragraph 117, program payments received by or attributed to the minor child's interest will **not** be attributed to the parent or legal guardian.

B Stock Classes

For corporations with more than 1 stock class; such as preferred and common, the ownership percentage of stock, or unit of ownership, shall be determined by the fair market value of outstanding stock.

Note: The value can be determined by COC, STC, DAFP, or designee, but should be determined at the earliest level **before** referring to the next higher level of authority.

--146 Determination of Ownership Interest (Continued)--

C Fair Market Value Factors

To determine the fair market value of stock, or unit ownership, the following available factors shall be considered:

- current market quotations for each stock class
- relevant factors affecting the value of each stock class
- rights and privileges of each stock class
- any other information that would assist in the determination.

* * *

--147 Eligibility Determinations*A Actively Engaged in Farming--***

[7 CFR 1400.204] A corporation, LLC, LLP, or LP shall be considered to be actively engaged in farming, if **all** of the requirements in the following table are met.

Item	Requirement
1	The legal entity independently and separately makes a significant contribution of capital, equipment, land, or combination thereof.
2	Partners, stockholders, or members with an ownership interest in the legal entity make contributions, whether compensated or not compensated, of active personal labor, active personal management, or a combination of active personal labor and active personal management to the farming operation. * * *
3	The collective contribution of active personal labor or active personal management by partners, stockholders, or members is a significant contribution to the farming operation.
4	The legal entity's share of the profits or losses from the farming operation is commensurate with the contributions to the farming operation.
5	The legal entity's contributions are at risk, with the level of risk being commensurate with the legal entity's claimed share of the farming operation.

***--B Member Contribution Requirements**

In addition to the requirements of actively engaged in farming, all partners, stockholders, or members with an ownership interest in the legal entity **must** make contributions of active personal labor and/or active personal management to the farming operation of the legal entity that are:

- performed on a regular basis
- identifiable and documentable
- separate and distinct from contributions of any other partner, stockholder, or member.

Note: If a partner, stockholder, member fails to meet this requirement, payments subject to the actively engaged in farming determination will be reduced by the share held by that partner, stock, or member.--*

--147 Eligibility Determinations (Continued)*C Exceptions to Member Contribution Requirements**

The following are exceptions to the requirements of subparagraph B.--*

Payments less than 1 limitation – If the total of direct payments under DCP received, both directly and indirectly, for the program year by the partners, stockholders, and members does **not** exceed \$40,000, the requirement of a significant contribution of active personal labor or active personal management may be met by partners, stockholders, or members who collectively hold at least 50 percent of the ownership interest in the legal entity.

Spouses – If both spouses are interest holders in the same legal entity, the contribution of active personal labor and/or active personal management of 1 spouse to the farming operation of the legal entity will also meet the other spouse's requirement to make a contribution of active personal labor and/or active personal management to the farming operation of the legal entity.

Minor children – If a parent is an interest holder in a legal entity in which his or her minor children are also interest holders, the parent's contribution of active personal labor and/or active personal management to the legal entity's farming operation will also meet the requirement that each minor child **must** make a contribution of active personal labor and/or active personal management to the same farming operation.

Spouses and minor children – If both spouses and minor children are in the same legal entity, the contributions of 1 spouse/parent of active personal labor and/or active personal management to the legal entity's farming operation will meet the requirements that all such interest holders of the legal entity **must** contribute active personal labor and/or active personal management to the legal entity's farming operation.

Note: Contributors of active personal labor and/or active personal management to a legal entity's farming operation **must** hold an ownership interest in the legal entity at the time the contributions are made.

Landowner – If all land in the legal entity's farming operation is owned by the legal entity, the requirements of subparagraph A do **not** apply to the interest holders of the legal entity.

D Separate and Distinct Contributions of Labor

If a partner, stockholder, or member provides active personal labor to the entity's farming operation that is performed on a regular basis, and that is identifiable and documentable, that partner, stockholder, or member will be considered to have met the requirements of a separate and distinct contribution of labor to the entity's farming operation.

--147 Eligibility Determinations (Continued)--**E Burden of Proof Recordkeeping Requirements**

All partners, stockholders and members with an ownership interest must contribute active personal labor and/or active personal management to the entity's farming operation.

Each partner, stockholder, and member must be able to show by reasonable means that such activities:

- are performed on a regular basis throughout the crop year
- are identifiable and documentable as to which partner, stockholder, or member made such contribution
- are separate and distinct from any other partner, stockholder or member with an ownership interest in the farming operation.

F Methods of Proof

Reasonable records may include, but are not limited to, the following:

- appointment books
- calendars
- narrative summaries
- phone logs
- contemporaneous records
- activity logs with date, time, and description of activity performed
- documents for goods and services used by the farming operation signed only by the interest holder.

--147 Eligibility Determinations (Continued)--**G Verification of Recorded Activities**

COC may request verification from an interest holder if:

- the records provided for these activities seem unreasonable for the type and size of farming operation
- performance of these activities is questionable as claimed
- the farming operation is selected for an end-of-year review for payment eligibility and payment limitation compliance purposes.

H Payment Reduction

If any partner, stockholder, or member fails to meet the requirements in subparagraph A, **all** payments to the legal entity subject to the actively engaged determination will be reduced by an amount commensurate with the ownership share held by the partner, stockholder, or member.

***--I Member Contribution Requirements and Joint Operations**

148 Corporation, LLC, LLP, and LP Case Examples

A Example 1

Situation: Corporation XYZ rents 3,000 acres of land for 1/3 share of the crop.

- Corporation XYZ contributes a significant amount of capital to the operation.
- Corporation XYZ hires the majority of all labor necessary for the operation.
- All 3 stockholders provide the balance of the labor needed.
- All 3 stockholders meet regularly during the crop year and all management decisions are made jointly during these meetings.
- Each stockholder has defined responsibilities, such as marketing, field operations and equipment, financing and daily business activities.
- Each stockholder is on-site almost every day during the crop year.
- The corporation's share of the profits or losses from the farming operation is commensurate with the corporation's contributions and the contributions are at risk for a loss.

***--Determination:** Corporation XYZ made a significant contribution of capital. All 3 stockholders collectively made a significant contribution of active personal management to the farming operation. Corporation XYZ is; therefore, considered actively engaged in farming. Each stockholder contributed active personal labor and active personal management to the farming operation on a regular basis, identifiable and documentable, and each stockholder's contribution was separate and distinct from contributions made by the other stockholder. No payment reduction will be applied to the program payments received by Corporation XYZ.--*

148 Corporation, LLC, LLP, and LP Case Examples (Continued)

B Example 2

Situation: Corporation AB consists of Father A and Son B, each having a 50 percent share. Corporation AB cash-rents land.

- Father A is a retired farmer who created the corporation for tax reasons and to aid in the transfer of the farm to Son B.
- The corporation contributes a significant amount of capital and equipment to the farming operation.
- Son B contributes both active personal labor and active personal management to the farming operation.
- Father A lives on the farm and contributes no active personal labor, but periodically advises Son B about farm related matters.

Determination: Corporation AB provides significant contribution of capital and equipment, and Son B makes a significant contribution of active personal labor and active personal management to the farming operation. Corporation AB is considered actively engaged in farming; however, because Father A who holds a 50 percent ownership interest failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 147 B, Corporation AB will be subject to a 50 percent reduction in program payments received.

C Example 3

***--Situation:** Corporation GH consists of Spouse G owning 70 percent of the corporate stock and Spouse H owning 30 percent of the corporate stock.

- Corporation GH provides all the capital, equipment, and leased land for the farming operation.
- Spouse G provides all of the active personal labor and active personal management necessary for the farming operation.

Determination: Corporation GH is actively engaged in farming through the contributions of the corporation and of Spouse G. Even though Spouse H failed to make any contributions--* of active personal labor, active personal management, or a combination thereof, the exception applicable to spouses in subparagraph 147 C applies. No payment reduction will be applied to Corporation GH.

148 Corporation, LLC, LLP, and LP Case Examples (Continued)

D Example 4

***--Situation:** Revocable Trust E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 147 B apply to Corporation D.--*

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The revocable trust's grantor makes no contributions.

* * *

***--Determination:** Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, Trust E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 147 B, Corporation D will be subject to a reduction in program payments receive commensurate with the ownership interest held by Trust E.

If the grantor of Trust E were making contributions of active personal labor and/or active personal management to the farming operation on behalf of Trust E that met the requirement of subparagraph 147 B, a payment reduction would **not** apply for Corporation D.

E Example 5

Situation: Irrevocable Trust E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 147 B apply to Corporation D.--*

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The irrevocable trust's beneficiaries make no contributions.

* * *

148 Corporation, LLC, LLP, and LP Case Examples (Continued)

E Example 5 (Continued)

***--Determination:** Corporation D is considered actively engaged in farming because of the significant contribution of active personal labor and active personal management to the farming operation by the 2 individuals who are stockholders. However, because the remaining stockholder, Trust E, failed to make a contribution of active personal labor and/or active personal management to the farming operation that met the requirement of subparagraph 147 B, Corporation D will be subject to a reduction in program payments receive commensurate with the ownership interest held by Trust E.

If the beneficiaries of Trust E were making collective contributions of active personal labor and/or active personal management to the farming operation on behalf of Trust E that met the requirement of subparagraph 147 B, a payment reduction would **not** apply for Corporation D.

F Example 6

Situation: Estate E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 147 B apply to Corporation D.--*

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The estate's representative or heirs make no contributions.

G Example 7

***--Situation:** LLC E is a stockholder in Corporation D with 2 other individuals. Member contribution requirements of subparagraph 147 B apply to Corporation D.--*

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation (payment entity) as actively engaged in farming.
- LLC's interest holders make no contributions.

If the interest holders of LLC E were making contributions of active personal labor and/or active personal management to the farming operation on behalf of LLC E that met the requirement of subparagraph 147 B, a payment reduction would **not** apply for Corporation D.--*

148.5 Member Contribution Share

A Determining Member Contribution Share

A member contribution share for a member of a legal entity is necessary only when **both** of the following apply:

- part of the land in the farming operation is owned by the legal entity
- *--member fails to make contributions according to subparagraph 147 B.--*

B Calculating Member Contribution Share

Calculate the member contribution share as follows:

- total acres of cropland owned by the legal entity, **divided by**
- total acres of cropland operated/included in the legal entity's farming operation.

Example: Big Farms LLC has 2 interest holders, Jed and Jared. Neither make any
--contributions to the farming operation according to subparagraph 147 B.--

Big Farms LLC operates a total of 500 acres. Of that total, 100 acres are owned by Big Farms LLC.

100 acres owned divided by 500 acres total in the farming operation equals a member contribution share of .2000 for Jed and Jared.

C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity

Calculate the member contribution share when a cropland factor is involved as follows:

- total cropland owned by the legal entity, **divided by**
- total acres of cropland operated **less** the acres of cropland responsible for the cropland factor applied to the payment entity.

148.5 Member Contribution Share (Continued)

C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity (Continued)

Example: Hawkeye Ag LLC has 2 interest holders, John and Jake, with equal shares.

Hawkeye Ag LLC operates a total of 1,500 acres of land comprised of 500 acres owned, 500 acres share-rented, and 500 acres cash-rented.

John meets member contribution provisions. Jake does **not** meet member
*--contribution provisions according to subparagraph 147 B and is only eligible for share of payments on the owned land.

Hawkeye Ag LLC earned \$30,000, but failed to meet the cash-rent tenant provisions according to subparagraph 147 B.--*

Both a cropland factor for Hawkeye Ag LLC and a member contribution share for Jake must be calculated and applied.

Calculate the cropland factor according to subparagraph 64 D as follows:

- total cropland acres owned plus acres not cash-rented, divided by
- total cropland acres in the farming operation.

500 acres owned plus 500 acres share-rented divided by 1,500 acres in the farming operation of Hawkeye Ag LLC equals a factor of .6666. This factor will be applied to the total payments earned of \$30,000 for a payment reduction of \$10,000 ($30,000 \times .6666 = 20,000$; $30,000 - 20,000 = 10,000$).

The failure of Hawkeye Ag LLC in meeting the cash-rent tenant provision will result in a payment reduction of \$10,000 applied to the entity.

The acres of cropland responsible for the cropland factor applied at the entity level will not be included in the calculation of the member contribution share.

Calculate the member share contribution for Jake as follows: 500 acres owned by Hawkeye Ag divided by 1,000 acres (1,500 acres total minus 500 acres cash-rented) equals a member contribution share of .5000.

- For John, the member contribution flag will be set to “Y”.
- *--For Jake, the member contribution flag will be set to “P” and the member--* contribution factor of .5000 will be entered.

CCC-902 E (03-26-09)	DEFINITIONS	Page 6 of 6
<p>The following definitions apply to Form CCC-902E.</p> <ol style="list-style-type: none"> 1. ACTIVELY ENGAGED IN FARMING – means providing both: 1) significant contributions of capital, equipment, or land, or combination thereof to the farming operation; and 2) significant contributions of active personal labor or active personal management, or a combination thereof, to the farming operation as described. Further, for a person or legal entity to be considered actively engaged in farming for program payment purposes, the contributions of the person or legal entity must be at-risk and commensurate with the person's or legal entity's claimed share of the profit and loss of the farming operation. Failure to meet these requirements will result in the determination of ineligibility for payments under programs specified in 7 CFR Part 1400. 2. INTEREST IN A FARMING OPERATION – a person or legal entity is considered to have an interest in a particular farming operation if the person or legal entity owns or rents land to or from that farming operation; has an interest in the agricultural commodities produced on the operation; or is a member of a joint operation that either owns or rents land to or from the farming operation, or has an interest in the agricultural commodities produced on that operation. 3. JOINT OPERATION - is a general partnership, joint venture, or similar organization. 4. PERSON – is a natural person (an individual) and does not include a legal entity. 5. ACTIVE PERSONAL LABOR – a person is considered to be providing active personal labor with respect to a farming operation if that person is directly and personally providing physical activities necessary to conduct the farming operation, including land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities in the farming operation. Other qualifying physical activities include establishing and maintaining conserving covers and those physical activities necessary for livestock production for the farming operation. 6. ACTIVE PERSONAL MANAGEMENT – a person is considered to be providing active personal management with respect to a farming operation if that person is directly and personally providing the general supervision and direction of activities and labor involved in the farming operation; or providing services (whether performed on-site or off-site) reasonably related and necessary to the farming operation. 7. CAPITAL – with respect to a farming operation is the funding provided by a person or legal entity to the farming operation in order for such operation to conduct farming activities. To be considered a countable contribution for a person or legal entity, the capital must have been derived from a fund or account separate and distinct from that of any other person or entity involved in such operation. Countable capital does not include the value of any labor or management which is contributed to the farming operation. A capital contribution may be a direct out-of-pocket input of a specified sum or an amount borrowed by the person or entity. Capital does not include advance program payments. 8. Section 5 Estates

156 Actively Engaged in Farming Determinations**A General Rule**

For 2 program years **after** the program year in which a person dies, the person's estate shall be considered to be actively engaged in farming if all of the requirements in this table are met.

Item	Requirement
1	The estate separately makes a significant contribution of capital, equipment, land, or a combination thereof.
2	The personal representative (executor, administrator, etc.) or heirs of the estate collectively make a significant contribution of active personal labor, active personal management, or combination thereof, to the farming operation.
3	The estate's share of the profits or losses from the farming operation is commensurate with the contribution to the farming operation.
4	The estate's contributions are at risk.

Notes: See paragraph 128 for the incapacitated person rule.

--See 1-CM, paragraph 121 and Exhibit 10 for estate EIN requirements.--

B Rule for Estates in Existence Longer Than 2 Years

Following the period of 2 program years after the program year in which a person dies, the deceased person's estate shall **not** be considered to be actively engaged in farming **unless**, on a case-by-case basis, COC determines that the estate is still active and is being kept active for reasons other than receiving program payments.

C Required COC Reviews and Determinations

On an annual basis, COC is required to:

- identify all estates requesting program benefits that have been in existence for more than 2 program years after the date of death of the person
- review all supporting documentation provided by an authorized representative on behalf of the estate
- determine if the estate is kept active for reasons other than receiving program benefits and document the decision in COC minutes.

156 Actively Engaged in Farming Determinations (Continued)**C Required COC Reviews and Determinations (Continued)**

Information provided by an authorized representative of the estate for this **required** COC review may include, but is **not** limited to:

- Letter of Testamentary issued by the court within the last 12 months

- provided written notice of COC's ineligibility determination
- given appeal rights according to 1-APP.

D DD Review of Estates of in Existence Longer Than 2 Years

E State Office Review of Estates in Existence Longer Than 2 Years

Effective for 2009 and subsequent years, State Offices shall:

- collect reports from all DD's
- consolidate information for future reporting purposes to DAFP, PECD.

157 Case Examples

A Example 1

Situation: Estate E is formed upon the death of Person E that occurred less than 2 years ago. Person B is the sole heir of the estate and provides a significant amount of active personal management. Estate E provides equipment and rented land. All labor is hired. All contributions are commensurate and are at risk.

Determination: Estate E is considered to be actively engaged in farming since the heir, Person B, has provided a significant amount of active personal management and the estate has provided equipment and land.

B Example 2

Situation: Estate C is formed upon the death of Person C that occurred less than 2 years ago. The heirs are Persons E, F, and G, each having a 1/3 interest. Person E will serve as executor for the estate.

- **Before** the death of Person C, Person C owned equipment and all of the acreage farmed was cash leased.
- For the current year, Estate C will cash lease land. Estate C will contribute a significant amount of cash-rented land, owned equipment, and capital for the farming operation.
- Person E will provide a significant amount of active personal management with the estate hiring all labor.
- All contributions are commensurate and are at risk.
- COC reviewed the Letter of Testamentary and the prior year tax return, and determined that Estate C is being kept active for reasons other than receiving program benefits.

Determination: Estate C is considered to be actively engaged in farming and eligible for program benefits.

157 Case Examples (Continued)

C Example 3

Situation: Estate Y is formed upon the death of Person Y that occurred less than 2 years ago.

- **Before** death, Person Y had been determined to be actively engaged in farming and had entered into CCC-509 to participate in current year DCP.
- Estate Y will continue to farm the acreage that was leased to Person Y, as a successor-in-interest to the current year CCC-509. Estate Y will hire any labor and management that is needed for the farming operation.

Determination: Estate Y is considered to be actively engaged in farming because Person Y was determined to be actively engaged in farming and had executed CCC-509 to participate in DCP **before** death. However, to continue to be actively engaged in farming for the current year, the heirs or personal representative of the estate will have to provide a significant amount of active personal labor or active personal management, and the estate will have to provide a significant amount of capital, equipment, or land.

CCC-902 E (03-26-09)	DEFINITIONS	Page 6 of 6
<p>The following definitions apply to Form CCC-902E.</p>		
<ol style="list-style-type: none"> 1. ACTIVELY ENGAGED IN FARMING – means providing both: 1) significant contributions of capital, equipment, or land, or combination thereof to the farming operation; and 2) significant contributions of active personal labor or active personal management, or a combination thereof, to the farming operation as described. Further, for a person or legal entity to be considered actively engaged in farming for program payment purposes, the contributions of the person or legal entity must be at-risk and commensurate with the person's or legal entity's claimed share of the profit and loss of the farming operation. Failure to meet these requirements will result in the determination of ineligibility for payments under programs specified in 7 CFR Part 1400. 2. INTEREST IN A FARMING OPERATION – a person or legal entity is considered to have an interest in a particular farming operation if the person or legal entity owns or rents land to or from that farming operation; has an interest in the agricultural commodities produced on the operation; or is a member of a joint operation that either owns or rents land to or from the farming operation, or has an interest in the agricultural commodities produced on that operation. 3. JOINT OPERATION - is a general partnership, joint venture, or similar organization. 4. PERSON – is a natural person (an individual) and does not include a legal entity. 5. ACTIVE PERSONAL LABOR – a person is considered to be providing active personal labor with respect to a farming operation if that person is directly and personally providing physical activities necessary to conduct the farming operation, including land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities in the farming operation. Other qualifying physical activities include establishing and maintaining conserving covers and those physical activities necessary for livestock production for the farming operation. 6. ACTIVE PERSONAL MANAGEMENT – a person is considered to be providing active personal management with respect to a farming operation if that person is directly and personally providing the general supervision and direction of activities and labor involved in the farming operation; or providing services (whether performed on-site or off-site) reasonably related and necessary to the farming operation. 7. CAPITAL – with respect to a farming operation is the funding provided by a person or legal entity to the farming operation in order for such operation to conduct farming activities. To be considered a countable contribution for a person or legal entity, the capital must have been derived from a fund or account separate and distinct from that of any other person or entity involved in such operation. Countable capital does not include the value of any labor or management which is contributed to the farming operation. 159-165 (Reserved)

Section 6 Trusts

166 Revocable and Irrevocable Trusts

A Types of Trusts

For payment limitation purposes, there are 2 types of trusts, as follows.

Trust Type	Characteristics
Revocable	<ul style="list-style-type: none"> • Can be modified or terminated by the grantor or the assets revert to the grantor after a specific period of time. • Does not meet the criteria for an irrevocable trust.
Irrevocable	<ul style="list-style-type: none"> • May not be modified or terminated by the grantor. • The grantor does not have any future, contingent, or remainder interest in the corpus of the trust. • For trusts established after January 1, 1987, does not provide for transferring the corpus of the trust to the remainder beneficiary in less than 20 years from the date the trust is established, except in cases where the transfer is contingent upon the remainder beneficiary achieving at least the age of majority or upon the death of the grantor or income beneficiary. <p>Note: All trusts not meeting these requirements shall be considered revocable trusts.</p>

B Trust Scrutiny

All trusts that receive payments shall be carefully scrutinized to ensure that the trusts are legitimate legal entities and have **not** been created solely for the purpose of evading payment limitation provisions.

County Offices shall:

- require producers to provide a copy of the trust agreement unless the trust is a revocable trust
- * * *
- determine whether provisions are included in the trust that would require the trust to be considered a revocable trust for payment limitation purposes.

167 Trust Eligibility Determinations

A Revocable Trust and Grantor

A revocable trust is the same as the grantor.

B Trusts With Minor Children Beneficiaries

Program payments will be attributed **only** to the grantor of the revocable trust.

For revocable trusts with 1 or more minor children as beneficiaries, payments earned by the minor children's interest will be **not** be attributed to the parent's or court-appointed person's interest, if they are **not** grantors of the trust.

C Programs Not Requiring Actively Engaged in Farming Determinations

If a program requires eligibility determinations, but **not** actively engaged in farming determinations, the following are **required** to be eligible for payments or benefits:

- claimed share of the profits or losses of the farming operation **must** be commensurate with the contributions to the farming operation
- contributions **must** be at risk.

D IRA's and Employee Profit-Sharing Plans

An IRA or employee profit-sharing plan may be considered a valid program participant, as a trust **only**, if the Regional Attorney determines the account:

- meets the definition of legal entity
- has full function of a trust
- is owner of the land on which program benefits are requested.

The minimum information submitted for an IRA or Profit Share Plan **must** include documentation that:

- discloses the full trust agreement, naming the trust and the trustee who will function for the trust regarding all FSA programs
- proves the land as an asset of the trust and properly deeded to the trust as evidenced by a deed or other document that FSA can review.

***--Note:** Approval from the Regional Attorney is required **before** any payment eligibility determinations are made or issued. The request must include a brief summary of the information provided for the IRA or profit sharing plan and the reviewing authority's opinion of whether or not the IRA or profit sharing plan meets the requirements to be considered a valid program participant.--*

168 Trust Actively Engaged in Farming Determinations

A Rule

[7 CFR 1400.205] An irrevocable or revocable trust shall be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The trust separately makes a significant contribution of capital, equipment, land, or a combination thereof.
2	Income beneficiaries that make contributions of active personal labor or active personal management, have a combined interest of at least 50 percent, and collectively make a significant contribution to the farming operation.
3	The trust's share of the profits or losses from the farming operation is commensurate with the contribution to the farming operation.
4	The trust's contributions are at risk.
5	The trust has provided TIN of the trust, unless the trust is a revocable trust and either of the following applies: <ul style="list-style-type: none"> the grantor is the sole income beneficiary TIN for the trust is TIN for the co-granter and co-income beneficiary and the other grantor and income beneficiary is their spouse who is not requesting benefits under his/her TIN.
6	The trust has provided a copy of the trust agreement to COC, unless the trust is a revocable trust.

B TIN's

A single TIN, such as a Social Security number, may **not** be used to pay both a person and a trust in the same year.

***--Note:** See 1-CM, paragraph 121 and Exhibit 10 for EIN requirements for trusts.--*

C Trustee Actions

The personal actions of a trustee, either labor or management, **cannot** be considered as contributions of the trust in meeting the requirement of actively engaged in farming.

Only the income beneficiaries of a trust can provide the required, at-risk contributions of active personal labor, active personal management, or combination thereof, for the trust to be considered actively engaged in farming.

169 Trust Case Examples**A Irrevocable Trust Example 1**

Situation: EF Trust meets the requirements to be considered an irrevocable trust for payment limitation purposes. The trust, with Persons E and F each having a 50 percent interest, contributes a significant amount of capital to the farming operation. Each beneficiary contributes a significant amount of active personal management. All labor is hired. The land and equipment are leased. The trust's share of the profits or losses from the farming operation is commensurate with the trust's contributions to the operation and the contributions are at risk.

Determination: EF Trust is considered to be actively engaged in farming because the trust provides capital and the beneficiaries contribute a significant amount of active personal management.

B Irrevocable Trust Example 2

***--Situation:** The terms of a late spouse's will made certain specific bequests of cash and nonfarm property to persons other than his or her widow. The balance of the estate, including farmland, is distributed to a testamentary trust. The widow has the sole right to the income of the trust during his or her lifetime. At the time of his or her death, the trust is to be terminated and the property distributed to his or her heirs.

Determination: Because the widow has the sole right to income of the trust during his or--* her lifetime, the widow is considered the sole beneficiary. The trust is considered actively engaged in farming because of the landowner provision.

169 Trust Case Examples (Continued)**C Revocable Trust Example 1**

Situation: ST Trust is a revocable trust.

- Person U is the grantor and income beneficiary.
- ST Trust contributes a significant amount of both capital and equipment to the farming operation.
- Beneficiary contributes a significant amount of active personal management to the operation.
- All land is leased and all labor is hired.
- The trust's share of the profits or losses from the farming operation is commensurate with its contribution to the operation and the contributions are at risk.

Determination: ST Trust is considered to be actively engaged in farming. For payment limitation purposes, all payments issued to ST Trust will be attributed to Person U as grantor of the trust.

189 Average AGI Compliance Certification (Continued)

G Verifying AGI Certifications

COC or reviewing authority may do the following:

- question all or part of an AGI certification provided by an individual or entity
- request documentation, such as tax records, from the individual or entity
- use requested information to verify certifications made by the individual or entity for AGI certification purposes.

COC or reviewing authority shall record the following in COC or STC minutes:

- individuals and entities reviewed
- findings and results of reviews
- determinations of compliance or noncompliance with each AGI limitation.

COC or reviewing authority shall provide the following:

- written notice to the individuals and entities of results
- appeal rights according to 1-APP, if any determination is considered adverse.

H Deadline for AGI Certifications and Consents to Disclose

AGI certification and consent to disclose **must** be submitted:

- according to the deadlines established by the applicable programs
- **before** issuing any program benefit subject to AGI provisions.

I Multi-County Producers

Individuals or legal entities with multi-county farming interests will submit the required AGI certifications and consents to disclosure only in the recording county.

The recording county will do the following:

- make any AGI compliance determinations, if necessary
- set values in the eligibility files reflective of the certification or determination
- *--if requested, share the information with other counties.--*

190 Rules for Special Cases**A Acceptable Documentation**

For a person or legal entity, including a foreign person or legal entity that does **not** have tax records or is **not** required to file tax returns, acceptable forms of AGI documentation may include, but are **not** limited to, the following:

- annual budgets and statement of operations
- annual public financial disclosures
- financial statements
- other documentation as deemed acceptable by the reviewing authority.

B Churches, Clubs, Fraternal Organizations, Societies, and Similar Associations

Persons who attend a church or belong to a club, fraternal organization, association, or similar type of entity that is requesting payments or benefits:

- do **not** hold an ownership interest in the entity
- are **not** required to submit an AGI certification for the entity to meet AGI provision.

Note: The church, club, etc. are required to provide an AGI certification.

C Multi-Year Contracts and Agreements

For program contracts and agreements that extend more than 1 crop year, program year, or FY, the average AGI determination will:

- be based on the 3 taxable years preceding the most immediately preceding complete taxable year for which the contract or agreement is approved

Note: For a successor to an approved CRP-1, the 3-year period is based on the approval date of succession, **not** on the original approval date of CRP-1. See
 --subparagraph G. The approval date of succession is the effective date of change in interest in the CRP land according to 2-CRP.--

- be made once and apply for the entire term of the contract or agreement.

190 Rules for Special Cases (Continued)**D Succession-in-Interest**

The average AGI limitations, according to this part, do **not** apply to multi-year contracts; such as CRP-1's that were effective **before** October 1, 2008. The average AGI provisions in this part were **not** part of the original contract or agreement when executed.

If succession occurs to a multi-year contract or agreement that was effective:

- **before** FY 2009, the successors **will not** be subject to AGI provisions in this part on the multi-year contract or agreement
- for FY 2009 or subsequent years, the successors **will** be subject to AGI provisions on the multi-year contract or agreement.

Note: See Exhibit 10 for the applicable payment eligibility/limitation rules and forms required for CRP.

E Which AGI Rule Applies to CRP Contracts

This table provides guidance on which:

- payment limitation and rules apply to CRP contracts
- AGI certification form should have been filed or must be filed at the time of contract approval.

Note: Follow subparagraph 189 C to determine which business types are required to file AGI certifications.

Original Contract Approved →	Before May 13, 2002				On or After May 13, 2002, and Before October 1, 2008	On or After October 1, 2008

Notes: For CRP continuous contracts approved between May 13, 2002, and September 30, 2002, that were effective for program year 2002, AGI provisions are **not** applicable. See 2-CRP, subparagraph 131 A for additional information. CCC-926 may have been used and was acceptable before CCC-931 was made available.

***--F AGI Requirements for Producers Associated With Original Contracts**

Follow this table to determine the requirements for filing an AGI certification form for producers.

Note: See the table in subparagraph E to determine which AGI certification form should be filed.

If the producer is an entity or joint operation, all members with an ownership share are required to file the applicable AGI certification if the entity/joint operation is required to file the certification.

IF the producer's share is...	AND the producer is...	THEN the AGI certification is...
0 percent		not required.
greater than 0 percent	<ul style="list-style-type: none"> an individual entity without members 	required for the producer.

190 Rules for Special Cases (Continued)

***--G Contract Revisions**

This table provides guidance for the requirements for filing an AGI certification form for producers and members of entities and joint operations when a contract is revised for either of the following reasons:

- new producer is added to the CRP contract
- new members are added to an entity or joint operation that has an interest in the CRP contract.

Note: See the table in subparagraph E to determine which AGI certification form should be filed.

If the contract is revised because...	AND the new producer has...	AND the producer is...	THEN an AGI certification is...
a new producer was added to the contract	0 percent share		not required.
	a share greater than 0 percent	<ul style="list-style-type: none"> • an individual • entity without members 	required for the year the change became effective for the producer. Example: Producer A has CRP contract #2117 with an effective date of October 1, 2010. Producer A sells the land to Producer B on September 20, 2011. Producer B informs the County Office on January 10, 2012, that he purchased the land under CRP contract #2117. Producer B must file AGI forms for 2011 (the year the change became effective).
		<ul style="list-style-type: none"> • joint operation • entity with members 	required as follows for the year the producer is added to the contract: <ul style="list-style-type: none"> • the producer, except for a joint operation • each member with an ownership share greater than 0 percent. See exception in subparagraph H.

190 Rules for Special Cases (Continued)

G Contract Revisions (Continued)

If the contract is revised because...	AND the new producer has...	AND the producer is...	THEN an AGI certification is...
an existing producer's share was increased from 0 percent		<ul style="list-style-type: none"> an individual entity without members 	required for year the producer was originally added to the contract with a 0 percent share.
		<ul style="list-style-type: none"> joint operation entity with members 	required as follows for the year the producer was originally added to the contract with a 0 percent share: <ul style="list-style-type: none"> the producer, except for a joint operation each member with an ownership share greater than 0 percent.
a new member is added to a joint operation or an entity with members			required for year the member was added to the operation with an ownership share greater than 0 percent. See exception in subparagraph H.

H Exception to Year AGI Certification Must Be Filed

If a producer or member of an entity or joint operation was previously associated with the CRP contract, then the original AGI certification continues to apply for that producer or member if their role changes.

Example: John Farmer has 100 percent interest in a CRP contract approved in 2010.

Farmers LLC replaces John Farmer as a producer on the CRP contract in 2012. John Farmer is a member of Farmers LLC and has a 100 percent ownership interest in Farmers LLC.

Because John Farmer was already associated with the contract, the 2010 AGI certification continues to be applicable for John. However, an AGI certification **must** be filed for 2012 for Farmers LLC.

***--I Examples of Applicable AGI Years for Succession to DCP and CRP Contracts**

In cases where there are questions on DCP/ACRE or CRP contract provisions, contact the appropriate program division. For AGI questions, contact PECD. In all cases, review 1-DCP or 2-CRP, as applicable. The following are examples of applicable AGI years for succession to DCP/ACRE and CRP contracts:

- **DCP/ACRE Rule.** Use the same rule for both original contract holder and successor to determine which AGI years to use. Start with the program year, skip the previous year, and use the 3 years before that, as follows.

The **2011 program year**, signup occurred October 1, 2010, through June 1, 2011. The contract year is the 2011 program year or FY, October 1, 2010, through September 30, 2011.

- Original contract holder signed the contract in December 2010. 2007, 2008, and 2009 are used for **2011** AGI.
- Successor purchased the land August 1, 2011, and notified the County Office September 1, 2011. County Office approved succession on October 1, 2011. Effective date of succession is August 1, 2011. 2007, 2008, and 2009 are used for **2011** AGI.
- **CRP Rule for Original Contract Holders.** For effective date of contract, see 2-CRP. Skip the previous year of the initial contract year and use the 3 years before the initial year of the contract, as follows.
 - Original contract holder's contract was approved by COC on June 1, 2011. Contract is effective October 1, **2011**. First payment is October 2012. 2007, 2008, 2009 are used for **2011** AGI.
 - Original contract holder's contract was approved by COC on June 1, 2011. Contract is effective October 1, **2012**. First payment is October 2013. 2007, 2008, 2009 are used for **2011** AGI.
- **CRP Rule for Successors.** Start with the date that caused the succession (date the land was purchased; date of inheritance), skip the previous year and use the 3 years before that.
 - Successor purchased land June 1, 2012. County Office is notified August 1, 2012. COC approved successor on October 1, 2012. Effective date of succession is determined according to 2-CRP as June 1, 2012. 2008, 2009, and 2010 are used for **2012** AGI.
 - Successor inherited land June 1, 2012. County Office is notified January 12, 2013. COC approved successor on January 19, 2013. Effective date of succession is determined according to 2-CRP as June 1, 2012. 2008, 2009, and 2010 are used for **2012** AGI.--*

191 Determining AGI and Average AGI**A Determining Total AGI (Farm and Nonfarm)**

Determine AGI according to the following table.

IF certification is by...	THEN AGI is the...
a person filing a separate tax return	amount reported as AGI on the final IRS tax return for the person for the applicable year.
a person filing a joint tax return	full amount reported as AGI on the final IRS tax return for the applicable year. Exception: A certification is provided by a certified public accountant or an attorney that specifies what the amounts would have been if separate tax returns would have been filed for the applicable year.
an LLC, LLP, LP, or similar type of organization	income from trade or business activities plus the amount of guaranteed payments to the members as reported on the final IRS tax returns for the applicable year.
an estate or trust	adjusted total income plus charitable deductions as reported on the final IRS tax return for the applicable year.
a corporation, including subchapter S corporation	total taxable income plus the amount of charitable contributions as reported on the final IRS tax return for the applicable year.
a tax-exempt or non-profit organization	unrelated business taxable income as reported to IRS less any income that CCC determines to be from noncommercial sources.

191 Determining AGI and Average AGI (Continued)**B Using IRS Data for AGI Determinations**

This table provides guidance on AGI determinations using data reported to IRS.

IF determining AGI for...	THEN see IRS Form...	AND use the amount entered on...
corporations	1120	*--either of the following: <ul style="list-style-type: none"> line 30 (total taxable income) plus line 19 (charitable contributions) for S corporations, use only IRS-1120S, line 21 (ordinary business income).--*

tax-exempt or charitable organizations	990-T	line 34 (unrelated business taxable income) minus income that CCC determined to be from noncommercial activity for years 2000 through 2011.--*

Note: Variations of the referenced IRS tax forms, or comparable forms, may apply in which the line items for the appropriate income amounts will be different.

C Applicable Years for Determining Average AGI

Use this table for applicable years to be used for determining average AGI.

IF crop year is...	THEN Average AGI will be based on the following years...
2009	2005, 2006, and 2007.
2010	2006, 2007, and 2008.
2011	2007, 2008, and 2009.
2012	2008, 2009, and 2010.
--2013	2009, 2010, and 2011.--

191 Determining AGI and Average AGI (Continued)**D Determining Average AGI (Continued)**

Determine the average AGI according to the following table.

IF determination is for a...	THEN average AGI is the average...
<ul style="list-style-type: none"> • person • legal entity in business for all of the applicable 3-year period 	of AGI, including losses, for the 3 taxable years preceding the most immediately preceding complete taxable year. Note: This includes legal entities not required to file an IRS tax return or legal entities that did not have taxable income in 1 or more years of the applicable 3-year period.
legal entity not in business for all of the applicable 3-year period	AGI, including losses for only the years in the base period that the new legal entity was in business.

E Average Nonfarm AGI's Exceeding \$1 Million Limitation

When the average nonfarm AGI is greater than \$1 million, a comparison **must** be made to determine if less than 66.66 percent of the average AGI was derived from farming, ranching, forestry operations, and related activities.

IF...	THEN see IRS Form...
corporation	<ul style="list-style-type: none"> • 1120; compare the 3-year average of line 10 (other income per Schedule F) with the average AGI determined for the same time period • 1120S; compare the 3-year average of line 5 (other income) with the average AGI determined for the same time period.
estate or trust	1041; compare the 3-year average of line 6 (farm income or loss) with the average AGI determined for the same time period.
LLC, LLP, LP, or other similar organization	1065; compare the 3-year average of line 5 (farm income or loss) with average AGI determined for the same time period.
person	1040; compare the 3-year average of line 18 (farm income or loss) with the average AGI determined for the same time period.
tax-exempt or charitable organization	990-T; compare the 3-year average of line 8 (interest, annuities, royalties, and rents per Schedule F) with the average AGI determined for the same time period.

Note: Exceptions may be applicable to the 3-year base period.

F AGI Compliance Worksheet

--For AGI compliance determinations, use worksheet in paragraph 203.8.--

191 Determining AGI and Average AGI (Continued)**G Rule for New Entity**

A new legal entity shall **not** be considered new to the extent that it takes over an existing operation and has any elements of common ownership or interests with the preceding legal entity, or persons and legal entities, with an interest in the old legal entity.

The income of the old legal entity will be averaged with the income of the new legal entity for the base period if any of the elements of commonality are present.

Example for 2009: Twin Falls Corporation is comprised of Joe Plummer (50 percent) and John Plummer (50 percent).

The average AGI from the 3 complete taxable years 2005, 2006, and 2007 for Twin Falls Corporation was \$1.1 million. Less than 66.66 percent was derived from farming, ranching, forestry operations, and related activities. Twin Falls Corporation had \$3 million AGI in 2008.

Twin Falls Corporation exceeded the average \$1 million nonfarm AGI limitation, and; therefore, was determined ineligible for 2009 conservation program benefits.

Example for 2010: Plummer LLC is comprised of Joe Plummer (5 percent), John Plummer (5 percent), and Twin Falls Corporation (90 percent).

Plummer LLC takes over the farming operation previously represented as Twin Falls Corporation.

The average AGI for Plummer LLC for 2010 payment eligibility purposes will be \$1.73 million, the average of AGI of Plummer LLC and Twin Falls Corporation for the years 2006, 2007, and 2008. Plummer LLC is ineligible for 2010 conservation program benefits because of the average \$1 million nonfarm AGI limitation.

192 Average AGI Limitations and Payment Eligibility

A Applying Average AGI

The following table shows how different average AGI amounts affect payment eligibility for a person or legal entity under different programs.

*--

Programs and Average AGI Limitations			
Program Payments and Benefits	Average AGI Amount	Income	Average AGI
Commodity (DCP and ACRE), Price Support, and Disaster Assistance	\$500,000	Nonfarm	Adjusted gross nonfarm income.
DCP and ACRE Direct Payments	\$750,000	Farm	Adjusted gross farm income (must also meet both the \$500,000 nonfarm AGI and the \$1 million AGI limitations).
DCP and ACRE Direct Payments	\$1 million	Total farm and nonfarm	Adjusted gross income (must also meet both the \$500,000 nonfarm and the \$750,000 farm AGI limitations).
Conservation	\$1 million	Nonfarm	Adjusted gross nonfarm income, unless 66.66 percent or more of the average AGI is average adjusted gross farm income. Note: May be waived on a case-by-case basis if environmentally sensitive land of special significance would be protected.

193 Average AGI Compliance Reviews

A Selecting Cases

Reviews for compliance with average AGI provisions may be:

- initiated by a COC or STC representative
- selected on a nationwide basis by DAFP.

B Verifying Compliance

Information necessary to verify compliance with the average AGI provisions includes, but is not limited to, the following:

- balance sheets
- financial statements
- information prepared for a private lender
- Federal and State income tax returns
- reports prepared for other Government agencies
- other credible information of income for the qualification period
- statement prepared by a certified public accountant or an attorney on behalf of the individual or legal entity that verifies compliance of the individual or legal entity with average AGI provisions for the applicable qualification period.

Note: Federal and State income tax information may be requested by the reviewing authority if that is the only means to establish compliance with the average AGI provisions.

Note: See the Adjusted Gross Income (AGI) Limitation Waiver Request Worksheet for Conservation Reserve Program in 2-CRP, Exhibit 16.

197 Calculating Average AGI for 2009 and Subsequent Years

* * *

A Special Rule for Average AGI Determination

If at least 66.66 percent of a person's or legal entity's average AGI is derived from all other sources of farm income, income from the following, if applicable, shall **also** be considered as farm income:

- sale of equipment to conduct farm, ranch, and forestry operations
- *--compensation for providing inputs and services to farmers, ranchers, foresters, and--* farm operations.

B Applying the Special Rule for Determining the Average AGI

The following are examples of applying the rule in subparagraph B.

Example 1: Jake has requested 2009 DCP benefits. Jake's total average AGI was \$900,000. His farm AGI was \$650,000 from the production of crops and livestock. His nonfarm AGI was comprised of \$150,000 from his aerial spraying service and \$100,000 from oil and gas royalties.

Facts and figures: Over 66.66 percent of Jake's total AGI was from the production of crops (\$650,000 divided by \$900,000 times 100 equals 72.22 percent). Jake also has nonfarm AGI from his aerial spraying; a custom service to farmers and ranchers, that now **must** be considered farm AGI for payment eligibility purposes.

The result: Jake's farm AGI is now \$800,000 (the total of \$650,000 and \$150,000); nonfarm AGI is \$100,000. Jake's farm AGI exceeds \$750,000. Jake is eligible for 2009 DCP benefits, **except** for direct payments.

Example 2: Wanda has requested 2009 DCP, NAP, and EQIP benefits. Wanda's total AGI was \$3 million. Her farm AGI was \$2.25 million from the production of crops and livestock. Her nonfarm AGI was \$750,000; comprised of \$500,000 for livestock equipment sales and \$250,000 from commercial real estate rental.

Facts and figures: Over 66.66 percent of Wanda's total AGI was from the production of crops and livestock (\$2.25 million divided by \$3 million times 100 equals 75 percent). Wanda also has nonfarm AGI of \$500,000 from livestock equipment sales that now **must** be considered average farm AGI for payment eligibility purposes.

The result: Wanda's farm average AGI is now \$2.75 million (\$2.25 million and \$500,000); nonfarm AGI is \$250,000. Wanda's farm AGI still exceeds \$750,000, but her nonfarm AGI is now less than \$500,000. Wanda is eligible for all program benefits requested, **except** for 2009 DCP direct payments.

198 (Withdrawn--Amend. 12)

If a person or legal entity chooses to provide an attorney or CPA statement, both the statement and CCC-931 or CCC-933 **must** be submitted to the County Office **before** CCC-931 or CCC-933 is considered complete and AGI compliance values may be updated in the Producer Eligibility file. The County Office shall:

- send the original CCC-931 or CCC-933 to IRS as provided in subparagraph 200 E

E Completing CCC-931's for 2009 and Subsequent Years

Complete CCC-931's according to the following table.

Item	Instruction
1	Enter name and address of the FSA County Office or Service Center of the recording county of the person or legal entity.
2	<p>Enter the name and address of the person or legal entity that is requesting benefits under any of the commodity, price support, conservation, or disaster assistance programs.</p> <p>Note: Enter the same name and address as used on filed tax returns if the name and address on record at FSA is different.</p>
3	Enter complete SSN or TIN of the person or legal entity represented in item 2.
4	<p>Select the year for which program benefits are being requested. Select only 1.</p> <p>Note: The year selected determines the 3-year period that will be used in the calculation of the applicable average AGI for payment eligibility.</p>
5	Select the response that describes the average AGI (all income from both farm and nonfarm sources) for the applicable 3-year period selected in item 4. Select only 1.
6	<p>Select the appropriate response that describes whether or not the average adjusted gross farm income for the applicable 3-year period selected in item 4 was at least 66.66 percent of the average AGI, both farm and nonfarm income. This AGI is the amount of AGI reported to IRS.</p> <p>If "YES" is selected, and if income includes the sale of farm equipment or production inputs and services to farmers, ranchers, foresters and farming operations, review the definition of farm income on CCC-931, page 2.</p> <p>Example: Jake has requested 2012 DCP benefits. Jake's average AGI was \$900,000. His farm AGI was \$650,000 from the production of crops and livestock.</p> <p>His nonfarm AGI was comprised of \$150,000 from his aerial spraying service and \$100,000 from oil and gas royalties.</p> <p>Over 66.66 percent of Jake's total AGI was from the production of crops (\$650,000 divided by \$900,000 times 100 equals 72.22 percent). Jake's farm AGI exceeds \$750,000. Jake is eligible for 2012 DCP benefits, except for direct payments.</p>

***--200.5 Average AGI Compliance Certification and Consent to Disclosure of Tax--*
Information (Continued)**

E Completing CCC-931's for 2009 and Subsequent Years (Continued)

Item	Instruction
7	<p>Select the response that describes the average adjusted gross farm income for the applicable 3-year period for the program year selected in item 4. Adjusted gross farm income is determined separately for each of the 3 years and then averaged to determine the average adjusted gross farm income used on CCC-931.</p> <p>Note: Adjusted gross farm income is not the same as the gross farm income reported to IRS. Adjusted gross farm income for FSA purposes is comparable to the net income from farming and related operations. In many cases, this may be the same as the "Net Farm Profit" or "Loss" determined on Schedule F of IRS-1040. However, FSA's definition of adjusted gross farm income also includes income from the sale of items such as agricultural related land, breeding livestock, and agricultural/conservation easements. Additionally, it is important to consider if income was received from the sale of farm related equipment and/or if income was received from the sale of production inputs and services before answering this question. Usually, income from these items is not considered farm income. However, if the income from farming is at least 66.66 percent of the total AGI from all sources, both farm income and nonfarm income, a special rule applies and income from these items must be included in the adjusted gross farm income. See the definition of farm income on CCC-931, page 2 for full details of what to include in adjusted gross farm income.</p>
8	<p>Select the response that describes the average adjusted gross nonfarm income for the applicable 3-year period for the program year selected in item 4. Adjusted gross nonfarm income is determined separately for each of the 3 years and then averaged to determine the average adjusted gross nonfarm income used on CCC-931.</p> <p>Adjusted gross nonfarm income is determined by subtracting the adjusted gross farm income for a tax year from the AGI as reported to IRS for the tax year.</p>
9	<p>Read the acknowledgments, responsibilities and authorizations, before affixing signature.</p> <p>For all types of entities, CCC-931 must be signed by a duly authorized representative.</p>
10	Enter the title or relationship if signing in a representative capacity.
11	Enter the signature date in month, day, and year format.

CCC-931 (12-07-11)	Page 2 of 2
GENERAL INFORMATION ON AVERAGE ADJUSTED GROSS INCOME – PART A	
<p>Individuals or legal entities that receive benefits under most commodity and conservation programs administered by CCC cannot have incomes that exceed certain limits set by law. For entities, both the entity itself, and its members cannot exceed the income limitations. If a member, whether an individual or an entity, of an entity exceeds the limitations, payments to that entity will be commensurately reduced according to that member's direct or indirect ownership share in the entity. (All members of the entity must also submit this form to verify income limitations are met.)</p> <p>Adjusted Gross Income is the individual's or legal entity's IRS-reported adjusted gross income consisting of both farm and nonfarm income. A three year average of that income will be computed for the three years of the relevant base period identified on the first page of this form to determine eligibility for the applicable program year. For 2012 only, individuals or legal entities with average <u>adjusted gross income</u> greater than \$1 million shall be ineligible for direct payments under the Direct and Counter-cyclical Program</p> <p>Adjusted Gross Farm Income is the part of the yearly adjusted gross income that is farm income. The amount is computed separately for each year and then averaged. Farm income means income related to the following: production of crops, livestock, fish and aquaculture for food; the feeding and rearing of livestock; products produced or derived from livestock; production of specialty crops and unfinished raw forestry products; processing packing, storing and transporting farm, ranch and forestry commodities including renewable energy; production of farm-based renewable energy; the sale of land used for agriculture; sale of land or sale of easements and development rights to agricultural land, water and hunting rights, and environmental benefits; rental or lease of land or equipment used in farming, ranching, forestry operation; payments and benefits from risk management practices, crop insurance indemnities, catastrophic risk protection plans, conservation program and government farm program payments. Individuals or legal entities with average adjusted gross <u>farm income</u> greater than \$750,000 shall be ineligible for direct payments under the Direct and Counter-cyclical Program</p> <p>Adjusted Gross Nonfarm Income is the difference for the year between the filer's <i>adjusted gross income</i> and the filer's <i>adjusted gross farm income</i>. The difference is computed separately for each year and then averaged. Individuals or legal entities with average adjusted gross <u>nonfarm income</u> that exceeds \$500,000 shall be ineligible for commodity program payments, price support benefits, disaster assistance programs, and for the Milk Income Loss Compensation Program. Additionally, individuals or legal entities with average adjusted gross <u>nonfarm income</u> exceeding \$1 million will be ineligible for new contracts or participation in conservation programs after October 1, 2008, unless at least 66.66% of their total average adjusted gross income (sum of farm and nonfarm income) is generated from activities related to farming.</p>	
HOW TO DETERMINE ADJUSTED GROSS INCOME	
<p>Individual – Internal Revenue Service (IRS) Form 1040 filers, specific lines on that form represent the adjusted gross income and the income from farming, ranching, or forestry operations.</p> <p>Trust or Estate – the adjusted gross income is the total income and charitable contributions reported to IRS.</p> <p>Corporation – the adjusted gross income is the total of the final taxable income and any charitable contributions reported to IRS.</p> <p>Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity – the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS.</p> <p>Tax-exempt Organization – the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.</p>	
GENERAL INFORMATION ON CONSENT TO DISCLOSURE OF TAX INFORMATION – PART B	
<p>This consent allows IRS's access to, and use of, certain items of return information to perform calculations, using a methodology prescribed by the USDA, that will assist USDA in its verification of a program participant's compliance with the adjusted gross income (AGI) limitations necessary for participation in, and receipt of, commodity, conservation, price support or disaster program benefits. This consent also permits the USDA to receive certain items of return information for its eligibility determination.</p> <p>This consent authorizes the disclosure of these items of return information for only the time period specified. Each item of information requested on this form is needed for the IRS to (1) locate, and verify, your tax information; (2) perform the requisite Average AGI calculations; and (3) provide the USDA with the legal entity's name and Taxpayer Identification Number (TIN), the type of return from which the specified items were located for use in the calculation, and whether or not the average AGI is above or below eligibility requirements. The IRS will not provide the USDA with any of the items specified on this consent form that it uses to perform the calculations or the average AGI figure.</p> <p>This form can only be signed by the person authorized under state law to sign this consent for the legal entity identified in Item 2. <u>An approved Power of Attorney (Form FSA-211) on file with USDA cannot be used as evidence of signature authority when completing this form.</u></p>

K Completing CCC-933's

Complete CCC-933's according to the following table.

Item	Instruction
1	Enter name and address of the FSA County Office or Service Center of the recording county of the producer.
2	<p>Enter the name and address of the person or legal entity that is requesting benefits under any of the commodity, price support, conservation, or disaster assistance programs.</p> <p>Note: Enter the same name and address as used on filed tax returns if the name and address on record at FSA is different.</p>
3	Enter complete SSN or TIN of the person or legal entity represented in item 2.
4	<p>The year for which program benefits are being requested is 2013 only.</p> <p>Note: The program year determines the 3-year period that will be used for calculating the average AGI for payment eligibility.</p>
5	Select the response that describes the average AGI (all income from both farm and nonfarm sources) for the applicable 3-year period selected in item 4. Select only 1.
6	<p>Select the appropriate response that describes whether or not the average adjusted gross farm income for the applicable 3-year period in item 4 was at least 66.66 percent of the average AGI, both farm and nonfarm income. This AGI is the amount of AGI reported to IRS.</p> <p>If "YES" is selected, and if income includes the sale of farm equipment or production inputs and services to farmers, ranchers, foresters and farming operations, review the definition of farm income on CCC-933, page 2.</p> <p>Example: Jake has requested 2013 DCP benefits. Jake's average AGI was \$900,000. His farm AGI was \$650,000 from the production of crops and livestock.</p> <p>His nonfarm AGI was comprised of \$150,000 from his aerial spraying service and \$100,000 from oil and gas royalties.</p> <p>Over 66.66 percent of Jake's total AGI was from the production of crops (\$650,000 divided by \$900,000 times 100 equals 72.22 percent). Jake also has nonfarm AGI from his aerial spraying; a custom service to farmers and ranchers, that now must be considered farm AGI for payment eligibility purposes.</p> <p>Jake's farm AGI is now \$800,000 (the total of \$650,000 and \$150,000); nonfarm AGI is \$100,000. Jake's farm AGI exceeds \$750,000. Jake is eligible for 2013 DCP benefits, except for direct payments.</p>

K Completing CCC-933's (Continued)

Item	Instruction
7	<p>Select the response that describes the average adjusted gross farm income for the applicable 3-year period for the program year selected in item 4. Adjusted gross farm income is determined separately for each of the 3 years and then averaged to determine the average adjusted gross farm income used on CCC-933.</p> <p>Note: Adjusted gross farm income is not the same as the gross farm income reported to IRS. Adjusted gross farm income for FSA purposes is comparable to the net income from farming and related operations. In many cases, this may be the same as the "Net Farm Profit" or "Loss" determined on Schedule F of IRS-1040. However, FSA's definition of adjusted gross farm income also includes income from the sale of items such as agricultural related land, breeding livestock, and agricultural/conservation easements. Additionally, it is important to consider if income was received from the sale of farm related equipment and/or if income was received from the sale of production inputs and services before answering this question. Usually, income from these items is not considered farm income. However, if the income from farming is at least 66.66 percent of the total AGI from all sources, both farm income and nonfarm income, a special rule applies and income from these items must be included in the adjusted gross farm income. See the definition of farm income on CCC-933, page 2 for full details of what to include in adjusted gross farm income.</p>
8	<p>Select the response that describes the average adjusted gross nonfarm income for the applicable 3-year period for the program year in item 4. Adjusted gross nonfarm income is determined separately for each of the 3 years and then averaged to determine the average adjusted gross nonfarm income used on CCC-933.</p> <p>Adjusted gross nonfarm income is determined by subtracting the adjusted gross farm income for a tax year from the AGI as reported to IRS for the tax year.</p>
9	<p>Read the acknowledgments, responsibilities and authorizations, before affixing signature.</p> <p>For all types of entities, CCC-933 must be signed by a duly authorized representative.</p>
10	Enter title or relationship if signing in a representative capacity.
11	Enter signature date in month, day, and year format.

201 CCC-929, Average Adjusted Gross Income (AGI) Supplemental

A Explanation of Average AGI Verification Process

CCC-929:

- must be provided with CCC-931's and CCC-933's
- serves to inform all program participants about the average AGI certification and verification process.

B Example of CCC-929

The following is an example of CCC-929.

*--

This form is available electronically.	
CCC-929 (01-23-13)	U.S. DEPARTMENT OF AGRICULTURE Commodity Credit Corporation
AVERAGE ADJUSTED GROSS INCOME (AGI) SUPPLEMENTAL	
<p>– Why is it necessary to certify and verify compliance with the average AGI limitations?</p> <p>The Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill), as amended by the American Taxpayer Relief Act of 2012 (Pub L. 112-240), provides that individuals and legal entities with average AGI in excess of a specified average AGI limitation are ineligible for payments subject to that limitation. The limitations are: \$500,000 average nonfarm AGI for commodity programs; \$750,000 average farm AGI for direct payments under the Direct and Counter-cyclical Program or ACRE program; \$1 million average AGI for direct payments under the 2012 and 2013 Direct and Counter-cyclical Program or ACRE program; and \$1 million average nonfarm AGI for conservation programs.</p> <p>All direct and indirect recipients of commodity or conservation program payments are required to complete the CCC-931 or CCC-933, Average Adjusted Gross Income (AGI) Certification and Consent to Disclosure of Tax Information. The U.S. Government Accountability Office (GAO) concluded in a recent report that, without an adequate verification process, USDA could not ensure program payments and benefits were only being made to eligible recipients.</p>	
<p>– What process has been developed to verify average AGI?</p> <p>USDA has worked with the Internal Revenue Service to develop an electronic information exchange process strictly for the purpose of average AGI verification. This process electronically looks at certain line items on tax returns filed for the applicable three-year period, performs a series of calculations to arrive at the average amounts, and then compares these values to the average AGI limitations. USDA receives the results of these comparisons with indicators of whether the participant appears to exceed or not exceed the average AGI limitation amounts. No actual tax data will be included. USDA county office personnel will not view tax return information at any time during this process.</p>	
<p>– Will there be an opportunity to provide additional information or possible explanation and appeal if the results show that it appears one or more of the average AGI limitations have been exceeded?</p> <p>As part of the review and evaluation process, participants will be afforded the opportunity to provide tax returns and other information in explanation of the AGI certification. All written notifications of AGI compliance determinations will include explanations and the appropriate appeal rights. If necessary, the cases that appear to exceed the average AGI limitations will be reviewed and evaluated by FSA State office and/or headquarters personnel. The cases will not be reviewed by personnel from the local FSA office.</p>	
<p>– What is required for USDA to verify the average AGI certification?</p> <p>IRS requires written consent from the individual or legal entity to provide USDA verification of the average AGI for that individual or legal entity. This written consent is provided by using the form CCC-931 or CCC-933, Average Adjusted Gross Income (AGI) Certification and Consent to Disclosure of Tax Information. The CCC-931 form allows the selection of 2009, 2010, 2011, or 2012. Selection of "2009" on the form authorizes IRS to perform the average AGI calculations for the 2005, 2006, and 2007 tax years. Selection of "2010" on the form authorizes IRS to perform the average AGI calculations for the 2006, 2007 and 2008 tax years. Selection of "2011" on the form authorizes IRS to perform the average AGI calculations for the 2007, 2008 and 2009 tax years. Selection of "2012" on the form authorizes IRS to perform the average AGI calculations for the 2008, 2009 and 2010 tax years. The CCC-933 is for 2013 only and authorizes the IRS to perform the average AGI calculations for the 2009, 2010 and 2011 tax years. The CCC-931 or the CCC-933 must be completed for the same year an individual or legal entity requested payments or benefits under programs subject to the AGI limitations.</p>	
<p>– When must the applicant certification and consent form be completed and where does it go?</p> <p>Timeliness is essential in order to avoid any delays in the issuance of program payments and the possibility of refunding program payments. It is recommended that the CCC-931 or the CCC-933 be completed at the same time as an application or request for program benefits is submitted. The completed and signed CCC-931 or the CCC-933 should be mailed or returned directly to the local FSA office or USDA Service Center. Authorized FSA personnel will record the average AGI certification and forward the completed CCC-931 and the CCC-933 forms to the IRS for completion of the verification process.</p>	
<p>– What if the certification and consent form is not completed and returned to FSA?</p> <p>Failure to provide the certification and consent form may require refund of applicable payments received from FSA and NRCS.</p>	
<p>– Will any other USDA agency other than FSA be provided knowledge of this information returned from the IRS?</p> <p>NRCS will be the only other USDA agency that will have knowledge of this information since conservation programs administered by NRCS are subject to the \$1 million average nonfarm AGI limitation for conservation programs.</p>	
<p>– Will IRS be able to utilize the information for any other purposes and can it be disclosed to any persons or organizations outside of the Government?</p> <p>IRS will only use this information for this specified purpose. The information utilized for AGI compliance and verification purposes is not subject to disclosure under the Freedom of Information Act (FOIA). Furthermore, IRS and USDA are the only Federal, State, Local government agencies, Tribal agencies, or nongovernmental entities allowed by statute, regulation, or Routine Use to gain any measure of access to the information collected by the CCC-931 and CCC-933. And, IRS and USDA access to the information collection is highly limited, extending only to that access required by the specified purpose.</p>

202 Review and Validation Process

A IRS Calculations and Comparisons

*--For each person or legal entity who submits a completed CCC-931 or CCC-933, IRS will:

- match person's or legal entity's supplied information with IRS tax records and filings
- perform a series of calculations to determine AGI and average AGI amounts for the applicable 3-year periods
- compare calculated amounts to established average AGI limitation amounts
- report the results of the data-matching and calculations to FSA on a regular basis.

B IRS Results Reported to FSA

IRS provides results to FSA indicating the following information:

- whether or not the person or legal entity appears to meet 1 or more of the average AGI limitations
- number of years in the applicable 3-year period that tax data was available for the person or legal entity and used in the calculations
- IRS forms series on file and used in the data comparison for each person or legal entity.

IRS does **not** provide to FSA the following:

- dollar amounts representing the person's or legal entity's farm or nonfarm income
- AGI or average AGI amounts calculated and used in the comparisons
- a determination whether or not the person or legal entity is eligible or ineligible for--* payments under program that are subject to average AGI compliance.

C Receipt and Storage of Data From IRS

The information transferred from IRS to FSA is:

- received and stored in a secure database
- only accessible by authorized personnel
- used only in the AGI verification process
- **not** releasable under FOIA
- **not** available for any other purposes or uses.

202 Review and Validation Process (Continued)**D Using Data Received From IRS**

The data received from IRS will be:

- validated with SCIMS and producer eligibility records

C AGI Compliance Review File for State Office Only

An AGI Compliance Review File created for each person or legal entity and program year reviewed should contain the following after completing the review:

- all documentation (CPA or attorney statement, or tax information) received from the person or legal entity
- copy of subsidiary print **before** completing the review

- copy of subsidiary print **after** the SED determination was updated in the web eligibility file, if applicable
- copy of the written notice of determination or completion of the review sent to the person or legal entity.

Note: See Exhibit 21 for AGI Compliance Review Checklists.

203.8 Average AGI Compliance Review Process

A Information Collection and Comparison

A review of average AGI compliance requires the following actions:

- collecting the copy of average AGI certification (CCC-926, CCC-931, CCC-933, or acceptable statement from CPA or attorney) submitted by the person or legal entity for the applicable year
- collecting complete tax returns for each of the 3-years qualification period; or acceptable financial documents if filing tax returns is not required; or an acceptable statement from CPA or attorney with all required items that illustrate and document income levels and average AGI compliance for the person or legal entity for the applicable year
- comparing both sets of information to the rules and regulations governing average AGI for payment eligibility for the applicable year subject to review
- verify the following * * *:
 - subsidiary flags are accurately set to reflect the certification of record
 - there is a valid CCC-926/CCC-931/CCC-933 on file supporting record certification.

B Results and Findings

The results and findings of the review and evaluation are the basis to determine if person or legal entity meets or exceeds 1 or more of the average AGI limitations.

203.8 Average AGI Compliance Review Process (Continued)**D Admissions**

If a person or legal entity submits a revised CCC-931 or CCC-933, or certification is received that the person or legal entity exceeds any of the average AGI limitations for any program, do the following:

- accept the written material and keep with the file
- consider the AGI compliance review complete
- reset the applicable coverage AGI values to “producer not met” in the web-based eligibility files. See 3-PL (Rev. 1), paragraph 31.

If a person or legal entity affirms that 1 or more of the average AGI limitations are exceeded, FSA is:

- **not** required to issue a decision on ineligibility
- **not** required to issue an adverse decision on average AGI noncompliance
- required to issue adverse overpayment notifications for all programs that FSA administers.

***--E Withdrawing Average AGI Certification**

If a person or legal entity requests to withdraw an average AGI certification submitted for an applicable year, the request must be submitted **before** FSA issues any administrative decision relative to the person’s or legal entity’s average AGI compliance and **all** of the following:

- in writing
- signed by the person or authorized representative of the legal entity
- attached to CCC-926, CCC-931, CCC-933, or to the CPA or attorney statement submitted for the applicable year
- placed in the person’s or legal entity’s eligibility file.--*

203.8 Average AGI Compliance Review Process (Continued)***--E Withdrawing Average AGI Certification (Continued)**

When the request to withdraw an average AGI certification is accepted, the recording County Office **must** do the following:

- reset the eligibility AGI values to “Not Filed” for all commodity, direct payment, and conservation programs for the applicable crop, program and FY according to 3-PL (Rev. 1) paragraph 31
- consider the AGI compliance review complete
- **not** issue an adverse decision on average AGI compliance
- issue adverse overpayment notifications for **all** programs that FSA administers.--*

203.9 Payment Refunds and Collections**A Participant Fails to Timely Act or Is Determined AGI Noncompliant**

If a person or legal entity fails to timely respond to written notices on AGI compliance requirements, or has been determined noncompliant with the applicable AGI limitations, all payment refund determinations and collection efforts will be initiated by:

- NRCS for all payments under programs it administers subject to this AGI compliance determination
- FSA for all payments under programs it administers subject to this AGI compliance determination.

See paragraph 204 for example letters for AGI compliance.

203.9 Payment Refunds and Collections (Continued)**B Errors in Recording Either Determinations or Admissions**

When errors are discovered in either determinations or in the recording of determinations, take applicable corrective actions that include, but are not limited to the following:

- reset the eligibility AGI values according to 3-PL
- document on the report that AGI values were reset according to this subparagraph.

Example 1: Participant A certifies compliance with the \$500,000 nonfarm AGI and the \$1 million nonfarm AGI conservation limitations but indicates the farm AGI exceeds \$750,000. When recording those values in web-based eligibility, FSA incorrectly entered all 3 values as “Compliant” resulting in DCP direct payments being inadvertently issued to Participant A.

Result 1: Set correct values and notify the participant of the amount of any overpayment issued. The notification of overpayment (receivable) must later have additional explanation entered into the record of this debt explaining that despite the participant’s certification that the participant was not eligible. FSA inadvertently paid the participant and the erroneous payment must be refunded.

Example 2: Participant B completed CCC-926 for program year 2011 as part of an EQIP application. Funds were not approved to fund the application. A review of Participant B’s records for 2011 finds that Participant B did not receive any other program payments or benefits either directly or indirectly.

Result 2: Even though Participant B should not become a recipient of an overpayment (receivable) letter because funds were not approved, Participant B could, if Participant B wants to, with CCC-926 and, subsequently, flags could be reset accordingly to avoid having additional AGI compliance communications or notifications sent to Participant B.

C FSA and NRCS Responsibilities

Each Agency will be responsible for all follow-up actions as required under the following:

- respective program procedures for payment refunds
- DCIA.

C Example With an Attachment Letter for Requesting Additional Information

The following is an example notification letter where indications are average AGI limitations exceeded and additional information is requested for FSA review. This example letter is followed by an attachment.

*--

[Date]

[Address Block]

Dear [Name]:

The Food, Conservation, and Energy Act of 2008 (2008 Farm Bill) provides average adjusted gross income (AGI) limitations for participants who enroll in certain farm programs. These limitations apply to individuals and legal entities who receive payments, as well as to members of legal entities that receive payments.

The Farm Service Agency (FSA) and Internal Revenue Service (IRS) formed a partnership to ensure that only those participants who comply with AGI requirements receive farm program benefits. This data-sharing process maintains the confidentiality and privacy of tax return information while providing FSA information necessary to verify your average AGI certification.

You provided written consent allowing the IRS to average your AGI for the applicable tax years and to provide FSA information about whether or not your AGI exceeds limitation amounts.

The information received from the IRS indicates that for *[insert applicable program year 2009 through 2012]* program payment eligibility purposes, your average AGI may exceed the:

_____ **\$500,000 nonfarm AGI limitation** for commodity program benefits (including direct payments under the Direct and Counter-Cyclical Program (DCP) or Average Crop Revenue Election (ACRE) program), price support or disaster program benefits

--204 Example Letters for AGI Compliance (Continued)*F Example of Letter Granting Reconsideration**

The following is an example of a letter approving the participant's eligibility on reconsideration.

[Date]

[Address Block]

Dear [Name of Participant]:

This letter is in further reference to the appeal of the Farm Service Agency's (FSA's) decision concerning your eligibility under the Average Adjusted Gross (average AGI) income provisions for the 2010 program years.

You submitted a form CCC-931, Average Adjusted Gross Income (AGI) Statement for the 2010 program year and affirmed on the form that your nonfarm and farm income, as applicable, for the period of years identified in section 4 of the form, was within the limitations set forth in questions 5 through 7. You also certified that your average adjusted gross farm income was NOT at least 66.66 percent of the average adjusted gross income for the 2008, 2007, and 2006 three year period applicable to 2010.

On May 1, 2011, FSA wrote you advising that information from the U.S. Department of Treasury, Internal Revenue Service (IRS), indicated that your average AGI may exceed the AGI limitations for particular programs. FSA requested additional information to assist in its review. In response, you furnished documents that, when examined without any explanation from you, showed that you exceeded the \$1 million nonfarm AGI limitation for 2010 conservation benefits. Accordingly, you were determined ineligible for program payments subject to that AGI limitation. A letter advising you of this decision was issued on October 27, 2011. Upon receipt of that decision, you subsequently sought reconsideration from FSA.

On December 20, 2011, FSA representatives spoke with you in a telephone hearing. In the hearing you explained that the tax documentation you submitted reflected not only your income, but also income of your spouse. You mentioned having provided additional documentation specifying the manner income of you and your spouse would have been declared and reported if you each had filed two separate returns. In addition, you affirmed that the calculations were consistent with the information supporting the joint return. At the time of the hearing, FSA had received your documentation but did not have a certified statement by a certified public accountant or attorney affirming the calculations on division of the joint return. On December 22, 2011, FSA received a September 19, 2011, letter from an attorney affirming your calculations and certification of not having income in excess of the \$1 million nonfarm AGI limitation for 2010.

--204 Example Letters for AGI Compliance (Continued)*G Example Letter for Disapproving Reconsideration**

The following is an example of a letter disapproving the participant on reconsideration.

[Date]

[Address Block]

Dear [Name of Participant]:

This letter is in further reference to your appeal of the Farm Service Agency's (FSA's) decision concerning your eligibility under the Average Adjusted Gross Income Limitation Provisions for the 2009 and 2010 program years.

BACKGROUND

You submitted a form CCC-931, Average Adjusted Gross Income (AGI) Statement, for each of the 2009 and 2010 program years and affirmed on each form that your nonfarm and farm income, as applicable, for the period of years identified in section 4 of each form, was within the limitations set forth in questions 5 through 7. You also certified that your average AGI farm income:

- **was** at least 66.66 percent of the total average AGI for the 2007, 2006, and 2005, three year period applicable to 2009, and
- was **not** at least 66.66 percent of the total average AGI for the 2008, 2007, and 2006, three year period applicable to 2010.

On May 1, 2011, FSA wrote you advising that information from the U.S. Department of Treasury, Internal Revenue Service (IRS), indicated that your average AGI may exceed the average AGI limitations for particular programs. FSA requested additional information from you to assist in its review. In response, you furnished documents affirming that your average AGI exceeded the \$750,000 income limitation applicable to direct payments under the Direct and Counter-Cyclical Program (DCP) or Average Crop Revenue Election Program (ACRE) Program for 2009 and 2010. Consequently, you were determined ineligible for program payments subject to that average AGI limitation. A letter advising you of the decision was issued on October 27, 2011. You subsequently appealed FSA's decision to the State committee.

GENERAL PROGRAM PROVISIONS

The regulations governing average AGI limitations appear at 7 CFR part 1400.

APPELLANT'S POSITION

You assert that FSA's decision is in error because it is based on one-time capital gains in 2006 of more the \$3 million which resulted from a sale of trailer parks. You indicate that income shown on previous and subsequent years was far below average AGI limitations.

FINDINGS OF FACT

1. [Name]'s average AGI farm income was not at least 66.66 percent of the average AGI for the 2007, 2006, and 2005 three year period applicable to 2009. (IRS information and copy of May 17, 2011, e-mail correspondence to you from Jason Accountant, CPA).
2. The majority of [Name]'s average AGI for each three year period applicable to each of the 2009 and 2010 program years, as applicable, was from nonfarm income (sale of trailer parks). (IRS information and copy of May 17, 2011, e-mail correspondence to you from Jason Accountant, CPA).
3. [Name]'s average AGI nonfarm income is in excess of the \$500,000 AGI nonfarm limitation for commodity programs (including direct payments under the DCP and ACRE Programs) specified at 7 CFR § 1400.1 for 2009 and 2010. [Name]'s November 15, 2011, letter to FSA with attachments.)

ANALYSIS

A review of the IRS information and copy of May 17, 2011, e-mail correspondence to you from Jason Accountant, CPA, indicate, contrary to your certification, that your average AGI farm income was not at least 66.66 percent of the average AGI for the 2007, 2006, and 2005 three year period applicable to 2009. Rather, the majority of your average AGI for each three year period applicable to each of the 2009 and 2010 program years, as applicable, was from nonfarm income (sale of trailer parks). You confirmed these facts in your correspondence to FSA and in the hearing with the FSA. Accordingly, you are ineligible for payments and benefits under the \$500,000 average AGI nonfarm limitation for commodity programs (including direct payments under the DCP and ACRE Programs) specified at 7 CFR § 1400.1 for 2009 and 2010.

Mr. John Smith

Dear Mr. Smith:

The Huskers County FSA Committee has completed the review of the farm operating plan and supporting documentation submitted on behalf of J & S LLC for [year]. The Huskers County FSA Committee understands that J & S LLC is a properly organized limited liability company with 2 interest holders, each owning 50 percent of the entity. Entity interests are identified as follows:

<u>Individual/legal entity</u>	<u>Percent Interest</u>
John Smith	50
Jimmy Jones	50

Based on the information submitted, the Committee determined the following:

- J & S LLC is “actively engaged in farming” and eligible for payments under programs subject to the payment eligibility and payment limitation provisions.
- J & S LLC is restricted to one limitation for payment limitation purposes and payments will be attributed to each stockholder in accordance with the ownership share represented.
- Program payments issued to J & S LLC will be reduced by 50 percent, the interest held by Jimmy Jones. All interest holders in an entity are required to make contributions of active personal labor and/or active personal management to the farming operation. Such activities must be contributed to the farming operation on a regular basis throughout the crop year; identifiable and documentable; and separate and distinct from such contributions of any other interest holder. The failure of an interest holder to meet these requirements results in a reduction in payments commensurate with the ownership interest held by such interest holder in the entity. The CCC-902E farm operating plan submitted for J & S LLC revealed that Mr. Jones did not make any contributions to the farming operation.
- These determinations will remain in effect for the current and subsequent years and a new farm operating plan will not be required unless a change occurs in your farming operation that would affect these determinations.

These determinations are based on the facts as submitted. You are responsible for promptly notifying County FSA Office in writing of any change that would affect these determinations. Any unrevealed circumstances could require the application of a more restrictive rule.

The person claims 2 exemptions on the tax return and thereby reduces taxable income using IRS-allowable exemptions and/or deductions to \$0. For AGI purposes under 7 CFR Part 1400, the person has taxable income for 2008, and that taxable income is \$0.--*

B Attribution Examples

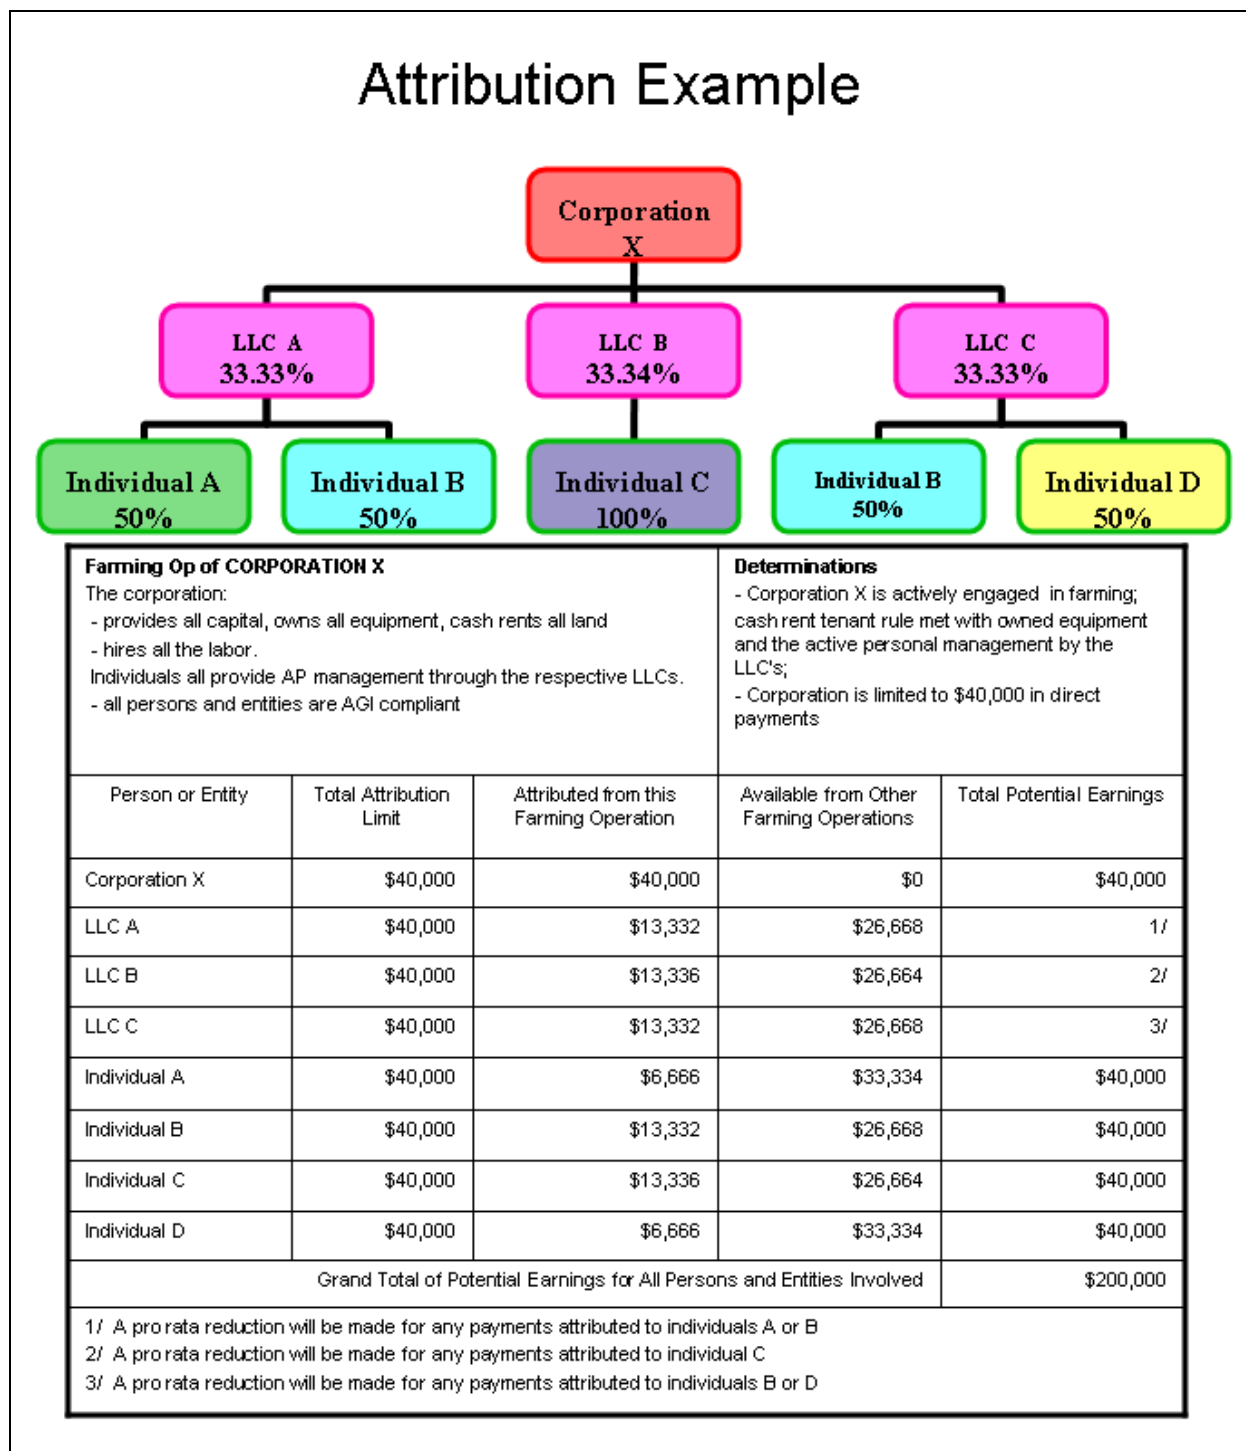

The following show the effect of attribution rules on spouses with multiple interests.

Description of Farming Operations				
Husband and Wife share 50/50 in a joint operation.	Wife is 100% beneficiary of a trust.	Husband has 25% interest in his father's estate.	Husband has 35% interest in a limited partnership with his brothers	Husband has 50% interest in the corporation that is the general partner of the Limited Partnership.
Husband/Wife Jt Op. H = 50%, W = 50%	Trust W = 100%	Estate H = 25%	Bros Cattle LTD H = 35%	Bros Cattle LTD Corp = 1% H = 50% of Corporation
Earns \$70,000 NAP Earns \$66,000 DCP	Earns \$8,000 NAP Earns \$10,000 DCP	Earns \$12,000 NAP Earns \$9,000 DCP	Earns \$10,000 NAP Earns \$15,000 DCP	LTD earns \$10,000 NAP LTD earns \$15,000 DCP
Attributed Amounts from Each Operation				
From the Jt Op	From the Trust	From the Estate	From his interest in LTD	Embedded interest in Corp
NAP H = \$35,000 W = \$35,000 Jt Op = \$0	NAP H = \$0 W = \$8,000 Estate = \$8,000	NAP H = \$3,000 W = \$0 Estate = \$12,000	NAP H = \$3,500 W = \$0 LTD = \$10,000	NAP H = \$50 W = \$0 Corp = \$100
DCP H = \$33,000 W = \$33,000 Jt Op = \$0	DCP H = \$0 W = \$7,000 * Trust = \$7,000	DCP H = \$2,250 W = \$0 Estate = \$9,000	DCP H = \$4,750 W = \$0 LTD = \$14,425	DCP H = \$0 W = \$0 Corp = \$75
	* Wife's DCP payment through the trust is limited because she already received \$33K in the Jt Op.		Husband's DCP earnings from his direct interest in the LTD is limited to his available attribution limit, bringing his total DCP to \$40,000. Amount attributed to the corporation reflects reductions made for the Husband's interests exceeding the direct attribution limit.	Husband's interest in the corporation is not eligible because his available attribution is \$0. His 50% of the corporation's 1% will not be paid.

I. PURPOSE

The purpose of this (MOA) is to provide for the implementation, cooperation, expectations and responsibilities between FSA, NRCS, and CCC in administering provisions common to the agencies including all payment eligibility and payment limitation provisions as found in the Food, Security Act of 1985, as amended, and regulations at 7 CFR Part 1400.

II GENERAL PROVISIONS

FSA and NRCS administer various farm commodity and conservation programs in which participants are subject to payment eligibility and payment limitation requirements in 7 CFR Part 1400. The administration of these programs requires the obtaining of information, determination of eligibility, and maintenance of this data. FSA has the administrative responsibilities for collecting and maintaining data that includes the name and address of the participant (SCIMS and farm records); information about the participant's farming operation (subsidiary files); and information on the participant's annual income (AGI files). FSA uses this information to make determinations of the participant's eligibility for program payments and restrictions on the amount of such payments that can be received by the participant, both directly and indirectly, for direct attribution. FSA has developed custom software applications for both the System 36 and web-based environments to store the eligibility data of all participants. FSA maintains this data and ensures the credibility and accuracy of this data. FSA performs the administrative compliance duties of the payment eligibility requirements and determinations of all participants of record. As such, FSA has also entered into agreements with the IRS and the Social Security Administration to verify and validate the accuracy of the participant information. FSA provides this data and
