Acreage Reports Required for FSA Programs: Webinar April 3, 2024 at 10:00

News Release | Washington | March 13, 2024

[View PDF](#)

Spokane Valley, WA (March 13, 2024) – Washington State Farm Service Agency (FSA) will be hosting a webinar on acreage reporting on Wednesday, April 3, 2024 at 10 a.m. as part of the [monthly webinar series](#). Acreage reports are a required element of FSA’s disaster, prices support, and conservation programs.

The webinar will review the acreage reporting process including how to prepare for acreage reporting, deadlines, and viewing maps on Farmers.gov. Attendees will have the opportunity to participate in a moderated Q&A session with local program experts following the presentation.

Date: Wednesday, April 3, 2024

Time: 10:00 a.m. to 11:00 a.m.

Platform: Microsoft Teams. Registration is not required. To access the event, follow the workshop link below.

Workshop Link: [Click here to attend](#).

The major acreage reporting deadlines for Washington State are as follows, though there are other deadlines for specific crops. Check with your county office about the deadline for your crop.

- **January 15:** Tree fruits and nuts, berries, grapes, and similar crops.
- **July 15:** Spring-planted crops, forage, and conservation.
- **December 15:** Fall-planted crops

Read the [Crop Acreage Reporting Factsheet](#) for more information on the program or contact the [local? USDA Service Center](#).
