WASHINGTON, D.C., July 8, 2020 – The U.S. Department of Agriculture (USDA) is providing additional flexibilities for producers to file on acres with failed crops or crops that were prevented from planting because of extreme weather events. USDA’s Farm Service Agency (FSA) is adding these flexibilities for *Notice of Loss* on both insured and uninsured crops to enable Service Centers to best assist producers.

“With many program deadlines approaching, our Service Centers are working hard to accommodate as many producer appointments as possible,” said FSA Administrator Richard Fordyce. “By providing flexibilities to our *Notice of Loss* policy, we can ensure we provide the best customer service.”

Filing for Prevented Planted Acres

For insured crops, producers who timely filed a prevented planted claim with the reinsurance company but filed a *Notice of Loss* (CCC-576) form after the deadline will be considered timely filed for FSA purposes. FSA can use data from the Risk Management Agency (RMA) for accepting the report of prevented planting with FSA. If the information is not available through RMA, the producer may also provide proper evidence to FSA that the prevented planted claim was timely filed with the reinsurance company.

For uninsured crops, producers may start a *Notice of Loss* (CCC-576) by calling their FSA county office, or they may print and complete the *Notice of Loss* ([CCC-576](#)) form from home and send to their county office. For prevented planted acreage, *Notice of Loss* forms mailed to the FSA office must be postmarked by the final acreage reporting date in the county to be considered timely filed. For all prevented planted cases, the *Report of Acreage* (FSA-578) form and the completed and signed *Notice of Loss* (CCC-576) **must** be filed by the applicable acreage reporting date.

Filing for Failed Acres

For failed acreage of uninsured crops, the *Notice of Loss* (CCC-576) must be completed, signed and verified before the disposition of the crop.

When to File a ‘Notice of Loss’

A *Notice of Loss* cannot be filed for a crop before the final planting date, but it can be filed before completing the crop acreage report.

More Information

Producers who miss FSA’s [July 15 acreage reporting deadline](#) will not face a late filing fee if filed within a month of the deadline.

For questions, please contact your FSA county office. To locate your FSA county office at your Service Center, visit farmers.gov/service-center-locator.

All USDA Service Centers are open for business, including some that are open to visitors to conduct business in person by appointment only. All Service Center visitors wishing to conduct business with FSA, Natural Resources Conservation Service or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel, and visitors must adhere to social distancing guidelines. Visitors may also be required to wear a face covering during their appointment. Field work will continue with appropriate social distancing. Our program delivery staff will be in the office, and they will be working with our producers in office, by phone and using online tools. More information can be found at farmers.gov/coronavirus.
