Emergency Support to Producers in Surrounding Counties/Border State Also Available

ALEXANDRIA, May 20, 2020 — Mississippi agricultural producers who lost property due to recent natural disasters may be eligible for U.S. Department of Agriculture (USDA) physical loss loans. The Farm Service Agency (FSA) offers these low-interest loans to agricultural producers in Amite, Lamar, Marion, and Walthall counties who incurred losses due to tornadoes and high winds that occurred on April 19, 2020. Approval is limited to applicants who suffered severe physical losses only, including the loss of buildings and livestock. Applications are due by Jan. 8, 2021.

“Mississippi’s hardworking ag producers feed our neighbors, the nation and the world,” said State Executive Director Robert Carson. “When they suffer losses because of extreme weather, helping them get back on their feet is important. We encourage those affected to reach out to their local USDA Service Center to apply for these emergency loans.”

Producers in the contiguous Mississippi counties of Covington, Forest, Franklin, Jefferson Davis, Lawrence, Lincoln, Pearl River, Pike, and Wilkinson, along with **East Feliciana, St. Helena, Tangipahoa, and Washington parishes in Louisiana**, are also eligible to apply for emergency loans.

Physical loss loans can help producers repair or replace damaged or destroyed physical property essential to the success of the agricultural operation, including livestock losses. Examples of property commonly affected include essential farm buildings, fixtures to real estate, equipment, livestock, perennial crops, fruit and nut bearing trees, and harvested or stored crops and hay.

For more information on FSA disaster assistance programs or to find your local USDA Service Center visit farmers.gov/recover.
