East Lansing, March 5, 2020 – Farmers and ranchers may apply to enroll grasslands in the Conservation Reserve Program (CRP) Grasslands signup beginning March 16. The signup runs through May 15.

“Through this CRP Grasslands signup, farmers and ranchers can protect grasslands, rangelands and pastures, while maintaining the land as working grazing lands,” said State Executive Director Joel C. Johnson. “The program emphasizes support for grazing operations and plant and animal biodiversity, while protecting land under the greatest threat of conversion or development.”

Through CRP Grasslands, participants retain the right to conduct common grazing practices, such as haying, mowing or harvesting seed from the enrolled land. Timing of some activities may be restricted by the primary nesting season of birds.

Participants will receive an annual rental payment and may receive up to 50 percent cost-share for establishing approved conservation practices. The duration of the CRP contract is either 10 or 15 years. FSA will rank applications using a number of factors including existence of expiring CRP land, threat of conversion or development, existing grassland, and predominance of native species cover, and cost.

The 2018 Farm Bill set aside 2 million acres for CRP Grassland enrollment. CRP is one of the largest conservation programs at USDA. CRP marks its 35-year anniversary in 2020 with 22 million acres currently enrolled.

For more information or to enroll in CRP Grasslands, contact your local FSA county office or visit fsa.usda.gov/crp. To locate your local FSA office, visit farmers.gov/service-locator.
