LINCOLN, Nebraska, Jan. 4, 2021 – Agricultural producers and private landowners interested in the [Conservation Reserve Program](#) (CRP) can sign up for the popular program beginning today, Jan. 4, 2021, until Feb. 12, 2021. The competitive program, administered by USDA’s Farm Service Agency (FSA), provides annual rental payments for land devoted to conservation purposes.

“This signup for the Conservation Reserve Program gives producers and landowners an opportunity to enroll for the first time or continue their participation for another term,” FSA State Executive Director Nancy Johner said. “This program encourages conservation on sensitive lands or low-yielding acres, which provides tremendous benefits for stewardship of our natural resources and wildlife.”

Through CRP, farmers and ranchers establish long-term, resource-conserving plant species, such as approved grasses or trees, to control soil erosion, improve water quality and enhance wildlife habitat on cropland. Farmers and ranchers who participate in CRP help provide numerous benefits to their local region and the nation’s environment and economy. CRP general signup is held annually and is competitive.

New cropland offered in the program must have been planted for four out of six crop years from 2012 to 2017. Additionally, producers with land already enrolled but expiring on Sept. 30, 2021, can re-enroll this year. The acreage offered by producers and landowners is evaluated competitively; accepted offers will begin Oct. 1, 2021.

CRP signup informational resources, including an educational video and the opportunity to sign up for online, live question and answer sessions, have been posted at nebraskapf.com/crp-signup/. Three question and answer forums are scheduled for Jan. 19 at noon MST; Jan. 20 at 6 p.m. CST; and Jan.

21 at noon CST. These virtual meetings are being hosted by several Nebraska natural resource and wildlife partners.

Signed into law in 1985, CRP is one of the largest private-lands conservation programs in the United States. The program marked its [35-year anniversary](#) in December 2020.

All USDA Service Centers are open for business, including those that restrict in-person visits or require appointments. All Service Center visitors wishing to conduct business with FSA, Natural Resources Conservation Service or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel, and visitors must adhere to social distancing guidelines. Visitors are also required to wear a face covering during their appointment. Our program delivery staff will continue to work with our producers by phone, email, and using online tools. More information can be found at farmers.gov/coronavirus.
