Program Helps Offset Transporting Costs for Farmers and Ranchers Outside the Contiguous U.S.

PALMER, Alaska, July 9, 2021 – The U.S. Department of Agriculture (USDA) in Alaska opened enrollment today for the Reimbursement Transportation Cost Payment Program (RTCP) for fiscal year 2021. The enrollment period begins July 12 and will run through Sept. 3.

“RTCP helps U.S. farmers and ranchers offset a portion of the cost of transporting agricultural products over long distances,” said Donna Kramer, Farm Service Agency (FSA) Acting State Executive Director. “This program helps U.S. farmers and ranchers outside the 48 contiguous states who are at a competitive disadvantage when transporting agriculture products to market.”

The Further Consolidated Appropriations Act, 2021 reauthorized RTCP and allows farmers and ranchers in Alaska, Hawaii and insular areas including the Commonwealth of Puerto Rico, Guam, American Samoa, Commonwealth of Northern Mariana Islands, Virgin Islands of the United States, Federated States of Micronesia, Republic of the Marshall Islands and Republic of Palau, to recover any costs to transport agricultural commodities or inputs used to produce an agricultural commodity.

RTCP payments are calculated based on the costs incurred for transportation of the agricultural commodity or inputs during a 12-month period, subject to an \$8,000 per producer cap per fiscal year. If claims for payments exceed the funds available from the program for a fiscal year, payments will be reduced on a pro-rata basis.

Farmers and ranchers interested in participating in RTCP can obtain applications and other documents by calling toll-free 1-866-794-1079.

To find their local FSA county office, producers can visit farmers.gov/service-center-locator. Service Center staff continue to work with agricultural producers via phone, email and other digital tools. Because of the pandemic, some USDA Service Centers are open to limited visitors. Producers should

contact their Service Center to set up an in-person or phone appointment. Additionally, more information related to USDA's response and relief for producers can be found at farmers.gov/coronavirus.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris Administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America.
