Enroll or re-enroll today

The U.S. Department of Agriculture (USDA) is now accepting applications for the Continuous Conservation Reserve Program (Continuous CRP). USDA's Farm Service Agency (FSA) encourages agricultural producers and landowners in California who are interested in conservation opportunities for their land in exchange for yearly rental payments to consider the enrollment options available through Continuous CRP, which also includes the Conservation Reserve Enhancement Program (CREP) offered by FSA partners. Additionally, producers participating in CRP can now apply to re-enroll, if their contracts will expire this year.

To submit an offer, producers should contact the FSA at their local [USDA Service Center](#) by July 31, 2024, in order to have an offer effective by Oct. 1, 2024. To ensure enrollment acreages do not exceed the statutory cap, FSA will accept offers from producers on a first-come, first-served basis and will return offers for approval in batches throughout the year.

Additionally, producers with acres enrolled in Continuous CRP set to expire Sept. 30, 2024, can now offer acres for re-enrollment. A producer can both enroll new acres into Continuous CRP and re-enroll any acres expiring Sept.30, 2024.

FSA water quality practices, such as riparian buffers, prairie strips, grassed waterways, and wetlands, will receive an additional 20% incentive. Buffer practices have a positive impact on water quality. Additionally, the Climate-Smart Practice Incentive launched in 2021 is also available in the Continuous signup.
