Farm Service Agency Seeking Nominations for Farmers and Ranchers to Serve on Local County Committees

Nominations are now being accepted for farmers and ranchers to serve on local U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees. These committees make important decisions about how federal farm programs are administered locally. All nomination forms for the 2024 election must be postmarked or received in the local FSA office by Aug. 1, 2024.

Elections for committee members will occur in certain Local Administrative Areas (LAA). LAAs are elective areas for FSA committees in a single county or multi-county jurisdiction and may include LAAs that are focused on an urban or suburban area.

Customers can locate their LAA through a geographic information system locator tool available at fsa.usda.gov/elections and determine if their LAA is up for election by contacting their local FSA office.

Agricultural producers may be nominated for candidacy for the county committee if they:

- Participate or cooperate in a USDA program.
- Reside in the LAA that is up for election this year.

A cooperating producer is someone who has provided information about their farming or ranching operation to FSA, even if they have not applied or received program benefits.

Individuals may nominate themselves or others and qualifying organizations may also nominate candidates. USDA encourages minority, women, urban and beginning farmers or ranchers to nominate, vote and hold office.

Nationwide, more than 7,700 dedicated members of the agricultural community serve on FSA county committees. The committees are made up of three to 11 members who serve three-year terms. Committee members are vital to how FSA carries out disaster recovery, conservation, commodity and price support programs, as well as making decisions on county office employment and other agricultural issues.

More Information

Producers should contact their local FSA office today to register and find out how to get involved in their county's election, including if their LAA is up for election this year. To be considered, a producer must be registered and sign an [FSA-669A](#) nomination form. This form and other information about FSA county committee elections are available at fsa.usda.gov/elections.

All nomination forms for the 2024 election must be postmarked or received in the local USDA Service Center by the Aug. 1, 2024, deadline. Election ballots will be mailed to eligible voters in November 2024.

USDA Announces Grassland Conservation Reserve Program General Signup for 2024

The U.S. Department of Agriculture (USDA) announced that agricultural producers and private landowners can now sign up for the Grassland Conservation Reserve Program (Grassland CRP). **The signup runs June 3, 2024 through June 28, 2024.** Grassland CRP, offered by USDA's Farm Service Agency (FSA), is a voluntary working lands conservation program that enables participants to conserve grasslands and provide important conservation benefits for wildlife, soil health and carbon sequestration, all while continuing most grazing and haying practices.

More than 2.3 million acres from agricultural producers and private landowners were accepted through the 2023 Grassland CRP signup. That signup reflects the continued success and value of investments in

voluntary, producer-led, working lands conservation programs. The current total participation in Grassland CRP is 8.64 million acres, which is part of the 24.8 million acres enrolled in CRP opportunities overall.

On Nov. 16, 2023, President Biden signed into law H.R. 6363, the Further Continuing Appropriations and Other Extensions Act, 2024 (Pub. L. 118-22), which generally extended the Agriculture Improvement Act of 2018 (Pub. L. 115-334), more commonly known as the 2018 Farm Bill, through Sept. 30, 2024. This extension allows authorized programs, including CRP, to continue operating.

Landowners and producers interested in CRP should contact their local [USDA Service Center](#) to learn more or to apply for the program before the June 28 deadline.

Other CRP Options

FSA is also accepting applications for the [Continuous CRP](#) signup, which opened in January 2023. Under this enrollment, producers and landowners can enroll in CRP throughout the year. Offers are automatically accepted provided the producer and land meet the eligibility requirements and the enrollment levels do not exceed the statutory cap.

Additionally, FSA also offers financial assistance to producers and landowners enrolled in CRP to improve the health of their forests through the [Forest Management Incentive](#) (FMI), which can help participants with forest management practices, such as brush management and prescribed burning.

Producers with expiring CRP acres can use the [Transition Incentives Program](#) (TIP), which incentivizes producers who sell or enter a long-term lease with a beginning, veteran, or socially disadvantaged farmer or rancher who plans to sustainably farm or ranch the land.

File a Notice of Loss for Failed and Prevented Planted Acres

USDA Farm Service Agency (FSA) reminds you to report prevented planted and failed acres in order to establish or retain FSA program eligibility for some programs.

You should report crop acreage you intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, *Notice of Loss*, no later than 15 calendar days after the final planting date as established by FSA and the Risk Management Agency (RMA).

You can contact your local FSA Office to learn more about the final planting date for your crop(s).

Additionally, if you have failed acres, you should also use form CCC-576, *Notice of Loss*, to report failed acres.

For hand-harvested crops and certain perishables, you must notify FSA of damage or loss through the administrative county office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. If you notify the County Office by any method other than by filing the CCC-576, you are still required to file a CCC-576, *Notice of Loss*, within the required 15 calendar days.

For losses on crops covered by the Noninsured Crop Disaster Assistance Program (NAP), you must file a *Notice of Loss* within 15 days of the occurrence of the disaster or when losses become apparent. You must timely file a *Notice of Loss* for failed acres on all crops including grasses.

To file a Notice of Loss, contact your local county USDA Service Center ([USDA Service Center Locator](#)) or visit www.fsa.usda.gov.

Update Your Records

FSA is cleaning up our producer record database and needs your help. Please report any changes of address, zip code, phone number, email address or an incorrect name or business name on file to our office. You should also report changes in your farm operation, like the addition of a farm by lease or purchase. You should also report any changes to your operation in which you reorganize to form a Trust, LLC or other legal entity.

FSA and NRCS program participants are required to promptly report changes in their farming operation to the County Committee in writing and to update their *Farm Operating Plan* on form CCC-902.

To update your records, contact your specific County USDA Service Center, which can be found [here](#).

USDA Now Accepting Applications for Available Funds to Help Cover Organic Certification Costs

Through the [Organic Certification Cost Share Program](#) (OCCSP), USDA's Farm Service Agency (FSA) will cover up to 75% of organic certification costs at a maximum of \$750 per certification category. FSA is now accepting applications, and organic producers and handlers should apply for OCCSP by the Oct. 31, 2024, deadline for eligible expenses incurred from Oct. 1, 2023, to Sept. 30, 2024. FSA will issue payments as applications are received and approved.

OCCSP was part of a [broader organic announcement](#) made by Agriculture Secretary Tom Vilsack on May 15, 2024, which also included the Organic Market Development Grant program and Organic Transition Initiative.

Eligible Applicants, Expenses and Categories

OCCSP provides cost-share assistance to producers and handlers of organic agricultural commodities for expenses incurred obtaining or maintaining organic certification under USDA's [National Organic Program](#). Eligible OCCSP applicants include any certified organic producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent.

Cost share assistance covers expenses including application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, inspector travel expenses, user fees, sales assessments and postage. OCCSP pays a maximum of \$750 per certification category for crops, wild crops, livestock, processing/handling, and state organic program fees (California only).

How to Apply

To apply, producers and handlers should contact FSA at their local [USDA Service Center](#) and be prepared to provide documentation of organic certification and eligible expenses. OCCSP applications can also be submitted through participating state departments of agriculture. For more information, visit the [OCCSP](#) webpage.

Opportunity for State Departments of Agriculture

FSA is also accepting applications from state departments of agriculture to administer OCCSP. FSA posted a [funding opportunity summary on grants.gov](#) and will electronically mail the Notice of Funding Opportunity to all eligible state departments of agriculture. Applications are due July 12, 2024.

If a state department of agriculture chooses to participate in OCCSP, both the state department of agriculture and FSA county offices in that state will accept OCCSP applications and make payments to eligible certified operations. Producers or handlers can receive OCCSP assistance from either FSA or the participating state department of agriculture but not both.

More Information

USDA offers other assistance for organic producers, including the [Organic Transition Initiative \(OTI\)](#), which includes direct farmer assistance for organic production and processing and conservation. For more information on organic agriculture, visit [farmers.gov/organic](#).

To learn more about FSA programs, producers can contact their local [USDA Service Center](#). Producers can also prepare maps for acreage reporting as well as manage farm loans and view other farm records data and customer information by logging into their [farmers.gov account](#). If you don't have an account, sign up today.

Reminders for FSA Direct and Guaranteed Borrowers with Real Estate Security

Farm loan borrowers who have pledged real estate as security for their Farm Service Agency (FSA) direct or guaranteed loans are responsible for maintaining loan collateral. Borrowers must obtain prior consent or approval from FSA or the guaranteed lender for any transaction that affects real estate security. These transactions include, but are not limited to:

- Leases of any kind
- Easements of any kind
- Subordinations
- Partial releases
- Sales

Failure to meet or follow the requirements in the loan agreement, promissory note, and other security instruments could lead to nonmonetary default which could jeopardize your current and future loans.

It is critical that borrowers keep an open line of communication with their FSA loan staff or guaranteed lender when it comes to changes in their operation. For more information on borrower responsibilities, read [Your FSA Farm Loan Compass](#).
